Subject: 107 th Lower Buckeye

I'm writing this In case I can't get into meeting on Sept 20 trying to build a storage by my home is not acceptable and puts my daughter life in danger with traffic. Having lots of strange people come and go it's not safe. It's gone create more traffic in the area it's already hard to come out of the neighborhood. Driving through Lower Buckeye already crazy and you want add another storage there on 99 th lower Buckeye another one on 83rd Ave there trying to make another one there too is really necessary to have some many so close together. Traffic gets crazier in November and March for NASCAR now add more traffic with that storage it's pointless. It's been safe around the neighborhood that storage can start bring crime, and theft and raising our home insurance and alarms systems that's not fair. All I'm asking is to reconsider the building of that storage.
