Subject: ITEM NO. 6 (Z-53-22-8) – APPROXIMATELY 860 FEET SOUTH OF THE SOUTHWEST CORNER OF 51ST AVENUE AND CARVER ROAD

The purpose of this memo is to recommend modified stipulations in response to the Laveen Village Planning Committee (VPC) recommendation and additional modifications requested by the applicant.

Rezoning Case No. Z-53-22-8 is a request to rezone 288.63 acres of S-1 (Ranch or Farm Residence), S-1 (Approved C-2 PCD) (Ranch or Farm Residence, Approved Intermediate Commercial, Planned Community District), S-1 (Approved R-2 PCD) (Ranch or Farm Residence, Approved Multifamily Residence District, Planned Community District), S-1 (Approved R-3 PCD) (Ranch or Farm Residence, Approved Multifamily Residence District, Planned Community District), S-1 (Approved R-3A PCD) (Ranch or Farm Residence, Approved Multifamily Residence District, Planned Community District), S-1 (Approved R1-10 PCD) (Ranch or Farm Residence, Approved Single-Family Residence District, Planned Community District), S-1 (Approved R1-18 PCD) (Ranch or Farm Residence, Approved Single-Family Residence District, Planned Community District), S-1 (Approved R1-8 PCD) (Ranch or Farm Residence, Approved Single-Family Residence District, Planned Community District), S-1 (Approved RH/R1-10 PCD) (Ranch or Farm Residence, Approved Resort District/Single-Family Residence District, Planned Community District) to PUD (Planned Unit Development) for the Gila Foothills PUD to allow single and multifamily residential, commercial uses, and some commerce park.

The Laveen VPC heard this request on March 18, 2024, and recommended approval per the staff memo dated March 18, 2024 with modifications and additional stipulations by a vote of 8-0.

Staff recommends that Stipulation No. 1.AA be clarified to address that 50 percent of the area within Development Unit 1 which permits 40 feet in height be permitted 40 feet, and the remaining 50 percent be limited to a maximum of 30 feet in height.

Staff recommends Stipulation No. 1.Z be modified to remove Development Unit 10, which already has a maximum height of 56 feet.

Staff recommends that Stipulation No. 1.JJ and 2 be modified to remove the reference to Development Unit 10 related to multifamily development that exceeds 40 feet in height, as any multifamily development not associated with the resort, regardless of height, is subject to additional review and approval per Stipulation No. 1.MM.

The applicant has requested that Stipulation Nos. 1.M, 1.MM, and 2 be modified to only apply to a 50-acre area reserved for a resort in development units 9A, 9B, and 10, and the remaining approximately 7 acres does not require a time limit for the reservation of a resort. The intent is that the approximately 7-acre area would not be placed in an area that would interrupt the viability of having a relatively contiguous 50-acre area reserved for a resort. This is addressed through modifications to Stipulation Nos. 1.M, 1.MM, and 2 below.

The applicant has also requested that a maximum of 40 lots within the area limited to 2.34 dwelling units per acre in Development Unit 8. This is to address additional concerns related to density in Development Unit 8. Staff recommends a modification to Stipulation No. 1.FF to further limit the area to a maximum of 40 lots.

Staff recommends approval, per the modified stipulations in **bold** font below:

1. An updated Development Narrative for the Gila Foothills PUD reflecting the changes approved through this request shall be submitted to the Planning Department within 30 days of City Council approval of this request. The updated Development Narrative shall be consistent with Development Narrative date stamped February 1, 2024, as modified by the following stipulations.

Each developer shall be required to provide an updated land use matrix illustrating maximum land use square footages in compliance with Appendix A2. Land Use Assumptions for Street Master Plan. Amendments to increase these established land use assumptions may be administered through a PUD Minor Amendment and shall require an updated Traffic Impact Analysis incorporating the increased assumptions.
