### **Phased Reopening City Services**

A discussion was held with City Council on Oct. 7, 2020 regarding the reopening of city facilities. In that same meeting there was also discussion regarding the information that is gleaned from the Arizona Department of Health Services Community Spread Benchmarks. That dashboard, which is updated weekly, categorizes the COVID-19 impact as:

#### **Substantial Risk**

- Greater than 100 cases/100K
- Greater than 10% positivity
- Greater than 10% COVID-like illness

#### **Moderate Risk**

- 10-100 cases/100K
- 5-10% positivity
- 5-10% COVID-like illness

#### **Minimal Risk**

- Less than 10 cases per/100K
- Less than 5% positivity
- Less than 5% COVID-like illness

## COVID-19 Benchmark Status – October 15, 2020

### City of Phoenix

Week of	Positivity Rate	New Cases / 100,000	COVID-Like Illnesses
Aug. 23	5.89%	39.02	2.0%
Aug. 30	4.74%	35.10	2.0%
Sept. 6	4.81%	29.27	2.0%
Sept. 13	5.24%	41.40	2.0%
Sept. 20	4.60%	40.27	2.0%
Sept. 27	4.96%	45.67	3.0%
