Report Suspicious

Hello Racelle,

Thank you for your prompt response. I will send my PPT slides to you by Wednesday, July 31st.

I have attached the names of the 970 members of the Little Deer Valley Homeowners group who oppose rezoning the Adobe Dam Recreational area, to afford Lennar a greater profit margin. We already have failing commercial one-quarter-mile from the proposed site and the addition of 294 homes will not provide any significant relief to the current housing shortage while sacrificing a significant portion of the park. Please pass this on to the Planning Commission for consideration in this matter.

Thank you,

## Scott Anderson

5029 W. Whispering Wind Dr. Glendale, AZ 85310 (623) 582-0865 saddlebackhoa@cox.net

**To:** Saddleback Home Owners <saddlebackhoa@cox.net> **Subject:** RE: Slides for August 1st Planning Commission Hearing

Yes, please send me the presentation by Wednesday, July 31.

Thanks,

# To Whom It May Concern,

We 970 Little Deer Valley Homeowners wish to make known our opposition to the zoning change Z-28-24-1 and the General Plan Amendment GPA-DV-1-24-1. We do NOT want 75-acres of single-family homes and we do NOT want 6-acres of commercial, to be built on the south side of Pinnacle Peak Road, intruding into the middle of Adobe Dam Regional Park. This property has been designated as recreational on the Phoenix General Plan for over 40 years and we wish it to remain designated as recreational property.

The Little Deer Valley Homeowners

CITY OF PHOENIX

Report Suspicious

Hi Matteo and Rob,

We have another Zoning Meeting this evening regarding the Lennar Development at 39<sup>th</sup> Drive and Pinnacle Peak Road. I received a voicemail, it looks like last week from someone with Lennar, however, the person who left the voicemail you could barely hear her voice and make out what was being said.

I need to get a copy per my attorney's review of the complete Traffic Density Report/Analysis of 39<sup>th</sup> Drive and a report for Pinnacle Peak Road that I am assuming you have already completed.

Please send this information over to me as soon as possible. I will be bringing this up at the meeting this evening as well. My HOA fees cover the maintenance of 39<sup>th</sup> Drive the entrance from Pinnacle Peak Road to Happy Valley Road. This roadway is considered as our common area that we maintain and provide to the community the walkways and bicycle paths along this road. Which is used daily by young children and adults. The increase in traffic is a huge concern on this roadway considering this is the only direct access from Pinnacle Peak to Happy Valley Road to the closest grocery store. This roadway is directly across from your future development that is being built. They will be using this road as access. I highly doubt they are going to go down to 43<sup>rd</sup> Avenue which would be the next road to access and is not governed by an HOA.

I appreciate your knowledge and thorough research in all of this planning. If you can please send me any additional information to ease my concerns, I would greatly appreciate it.

Thank you for your help and time on this matter. My attorney will review the report with me once you send it over.

Thank you,

Shannon

Report Suspicious

Teresa Sanders 3504 W Fallen Leaf Ln Glendale, AZ 85310 (623)308-6872 tmsanders@arizona.edu

July 16, 2024

#### To Whom It May Concern:

My name is Teresa Sanders and I am writing in opposition to the Lennar planned development of 80.31 acres off Pinnacle Peak Road and 36th Avenue. The cases in question are GPZ-DV-1-24-1 and Z-28-24-1. The request from Lennar is to change the area's zoning from Parks/Open Space - Publicly Owned to Residential 3.5-5 dwelling units per acre, and commercial respectively. It is my formal request to all decision-making authorities in the matter to reject this plan in its entirety and protect the area's designation as a publicly owned open space.

There are many justifiable reasons to support both cases, as I am aware that there is a housing crisis in the Greater Phoenix Area; made more devastating by the invasion of the Taiwan Semiconductor Manufacturing Company North of the 303. As a homeowner, I am gravely concerned with the effect this rapid development will have not only on the infrastructure that already can barely support those residing here, but also on the continued affordability of my home, and the devastating effects this rampant growth is having on an already fragile

ecosystem.

Should Lennar's plans be approved they will sell those homes for \$530k-\$700k. For reference, I purchased my home for \$250k at the end of 2019, the current Zillow estimate is over \$400k. Initially, that looks wonderful, I have so much equity in my home. However, that increase in value has also increased my property taxes and homeowners insurance premiums. As a teacher for the local school district, my wages were just enough for me to afford the home when I purchased it 5 years ago. If efforts to curb the over-inflation of values are not made, then my home will cease to be affordable. Good, wonderful neighbors, who have been renting in the area for years will also be pushed out, forced to uproot their children, and possibly made homeless due to ever-rising housing costs. Lennar's development plans do nothing to address the underlying issues. More homes that cost \$500k or more are not the way that we address the thralls of unhoused people in the Phoenix area. We do that by restricting profit margins for land developers and rental investments. If Lennar is willing to reduce the starting price of their homes to under \$400k, then that would be a small start towards addressing the larger problem.

The next concern is infrastructure for education, Lennar points out on their information page that the land currently does not pay taxes to support local schools, this land also does not import families that would be utilizing those resources. It is well known that schools are overcrowded and underfunded. This area is not exempt, and adding more families to an already strained system would be a disservice to all involved. Lennar already added nearly 300 homes near Jomax, and has plans to build far more, all with no additional schools being provided to support those students. Sandra Day O'Connor High School currently houses approximately 2600 students, there are not enough classrooms to support the needs already there, and as a result, teachers are being forced to share classrooms to accommodate student population needs. The growth of this area cannot support the continuous addition of homes without regard for public service needs, and with teachers leaving the profession in droves, there simply isn't enough staff to support an influx of this magnitude.

In regards to the claim that by leaving the wash intact local wildlife will not be disrupted, I formally disagree. Unless Lennar is able to survey the entire site and confirm that there are no nests, burrows, or otherwise, there will be habitat disruption. My school 2 miles from the proposed site had several lockdowns just this last year due to coyotes and javelina on campus.

If these open areas are only seen as empty eyesores then they are missing the entire point. No, that space doesn't currently have people living there, but to say no one lives there erases the importance of the lives of the wildlife we share this space with. If open spaces are covered up with people spaces then the animals will have nowhere to go and will end up euthanized because they'll be labeled as menaces, when really, they were here first.

Lennar claims that this development would only contribute to 16% of the traffic, my question is how did they come up with a number that low? If every home produced 2 drivers, as is the norm, that adds 588 additional vehicles utilizing the light at 39th Ave. If students from those homes attend the local high school, those additional vehicles would render an already dire traffic concern exponentially worse. Concerning the commercial development, since there is not a light abutting that planned space it would create dangerous traffic patterns as people attempt to navigate the entrances to the community, the commercial property, and the already existing water park, which routinely sees lines in the center lane that back up nearly to 39th Ave.

Additionally, unlike buildings and roads, the open desert does not actively contribute to soaring temperatures. In 2023 Phoenix experienced 31 days in a row of temperatures above 110 degrees Fahrenheit. Less than 10 days ago a record high of 118 beat the previous record by 3 degrees. I see nothing in Lennar's plan on how their proposed development would contribute to the cooling of our city. Lennar also points out that the area in question is not currently zoned as a flood plain, but with a wash that runs right through the middle of it, it absolutely is a flood risk. There are currently several, large well-established trees and many smaller mesquite and creosote growing on the land. Mesquite trees often have taproots 150-200 feet deep and shallower roots that extend out through the soil beyond the canopy which ranges from 30-50 feet. The vegetation that is already there is the reason why it currently is not a flood risk. Removing that vegetation and replacing it with roads and sidewalks not only would contribute to rising temperatures but would restrict the growth of native plants that prevent flooding and retain excess runoff which is critical to the maintaining area's water table.

Finally, water, the source of my primary concern with the rapid growth of the valley. I think it

is wonderful that the city is imposing water restrictions, however, since the state is already facing a massive shortfall, the only way to ensure water security for current residents is to halt all new construction until the drought and subsequent water woes are no longer concerns. It is widely known that if you don't have enough money to pay your bills, it isn't wise to be buying latter and avocado toast, why then do we continue to recklessly allow corporations to waste our resources when we already can not keep up with current demand? Continuing to approve construction and attract businesses to Arizona is a recipe for environmental collapse.

Lake Mead was at 1,074.10 feet as of noon on April 15, today it is at 1062.4 feet, which is a drop of 11.7 feet or 22.7 billion gallons of water, and that is after major cutbacks on acquiring water from the reservoir that also provides significant amounts of renewable energy to the southwest. Cities like Queen Creek, Casa Grande and Buckeye are already facing water shortages and are attempting to decimate further ecosystems by pumping water from other locations in to provide for the homes they've already built. Water cuts are negatively affecting farmers and threatening not only their livelihoods but all of ours. If we push out farming then we drive up the cost of food because it has to be grown elsewhere and then transported before arriving on our tables. Currently, the town of Queen Creek is attempting to render 485 acres of farmable land along the Colorado River fallow to divert the water from the Colorado River to meet the city's needs. Not only is this a terrible environmental decision regarding the decimation of farmable land, but it is also a back-door method of drawing more from a river that already can't support Phoenix's urban sprawl. Wenden, a small agricultural community west of Wickenburg has dropped 18 feet in elevation in the past 80 years, and is seeing as much as a 3 inch drop each year due to over-pumping of groundwater. While restricting water use for crops that don't benefit local communities is a wonderful step, it doesn't address the long-term water needs of the people. Certainly, residential land uses less water than agriculture. Those people still need to eat, and if we divert all of our resources to homes we will have barren earth and empty houses where farms once stood.

One acre-foot of water can typically supply ~3.5 homes per year, and the state has already reduced 592,000 acre-feet of the Colorado River water supply. Again, in an environment where we should be conserving, protecting, and reducing, corporate builders have been allowed to run rampant. Within the next hundred years, the Phoenix Metro area will be short water for 17 million homes. We are facing an immediate shortfall of water to nearly 170,000

homes, why on earth are we building more? Our water resources need to be more carefully guarded, and that begins with the rejection of new homes and new corporate buildings. There is no shortage of job opportunities in our state, in fact, the state website has 463 open positions alone. Arizona does not have a job availability problem, it has a resource management problem. Unless we want our civilization to go the way of the Hohokam, we all need to collectively decide that water should be for keeping food local and supporting the long term viability of the land. Non-local corporations have no place here, and the out-of-control sale of state-land to developers needs to stop.

A suggestion for the parcels in question would be to return the space to the community, arrange volunteers to plant more trees, and create dirt running/walking paths throughout the space. This land must be left for public use to ensure the long-term health and well-being of current residents. If there is a desire to add commercial opportunities to the space, take a page out of Prescott's book and create a GastroPark. The Yard, GastroPark on the corner of Montezuma and Willis is a brilliant compromise between the desire to bring in more business without detracting from the open space or wasting resources and money on building a complex that will likely sit vacant more than it doesn't. As is apparent with the shopping centers located on 36th Ave and Pinnacle Peak and on 36th Ave and Happy Valley. The GastroPark will offer food options to Water Park guests, minimize traffic impact, have a much lower environmental footprint, and support small, local businesses currently relegated to Farmer's Markets. The conversion of this space to an open park with native plants would also offer opportunities for a community garden, a permanent location for the Pinnacle Peak Farmer's Market, and would help reduce the heat and carbon emissions radiated by existing infrastructure. More homes have no place here, the residents of the area have spoken and we don't want more homes, more businesses, or anything that comes with it. We want access to safe open spaces that exist in harmony with the local and global environment, and that begins with rejecting Lennar's plans to build houses where open space should remain.

Sincerely,

Teresa Sanders

Dear City Of Phoenix Planning and Development Department, Zoning Section,

I am am a resident of the community where the area off Pinnacle Peak between 36<sup>th</sup> and 43<sup>rd</sup>, they want to rezone from Recreational to Family Residence. I am writing a list of reason why it should stay Recreational for family and children recreation.

- 1. Traffic is bad enough on Pinnacle Peak and Happy Valley with traffic coming off 101 and 17 at morning and rush hour, because so many homes and apartments have been built and at the mountains goes down to one lane on Pinnacle Peak. Trying to get on Pinnacle Peak is difficult off side streets and even 43<sup>rd</sup> with lights because the 43<sup>rd</sup> lights are set short for turning. Lights on Pinnacle Peak are longer because of all the traffic.
- 2. Are school classes were already full but are fuller now since the apartments have been built. The houses you are wanting to build on Pinnacle Peak will just make them bigger and harder for our teachers to teach and for all children to get the education they should get.
- 3. The homes you plan on building will eventually complain about the recreation that is already there that is enjoyed by many. The men and women that work all day enough playing at the baseballs fields to relax and have fun. All ages love the water park and the trains and the Go Kart family fun. Yes it maybe noisy sometimes but people are having fun. Everyone enjoys the fireworks on the holidays at nights too. I have heard the that other recreation places have been shut down because of new housing that was put in complained of the noise and lights, that is why it should stay recreation zoned.
- 4. We were told housing was needed for incoming people. Are the people coming over with the factory owners building here from other countries. It was mentioned at last meeting the homeless there can't afford them. There are many houses up for sale.
- 5. We have been told many times about our water shortage, what do you think all the buildings you what to put in is going to Help! No
- 6. As for the stores, we have enough empty ones in our community on Pinnacle Peak.

I know you have heard all this before but it is true. A concerned resident of this community and Arizona.

Michelle Dureas

Subject: OPPOSITION TO LENNAR DEVELOPMENT ON 39TH AVE AND PINNACLE PEAK

**Date:** Thursday, May 23, 2024 5:23:08 PM

#### **CAUTION:** This email originated outside of the City of Phoenix.

Do not click links or open attachments unless you know the sender and were expecting this email.

Report Suspicious

Mr. Moric,

I STRONGLY object to the Lennar Development project on 39th Ave and Pinnacle Peak. It is incompatible to have single family homes in such close proximity to the Adobe Dam Regional Park. Businesses and activities include: Wet n Wild Water Park, Adobe Mountain Speedway, Go Kart Racing, Ball Fields, etc. It is the only park of its kind and important to the Little Deer Valley community. Those recreational activities generate a great deal of noise, bright lighting and dust that continue late into the night. Most of the activities happen in the evening when the residences of this new community will be home. This will inevitably generate complaints from the Lennar home owners who are quite literally RIGHT next door and will ultimately result in curbing the activity and hours of operation in Adobe Dam Regional Park. This would be the epitome of the cities POOR planning of placing incompatible zoning uses side by side.

Also of note is the significant amount of accidents that already occur at 39th Ave and Pinnacle Peak. Adding two more eggesses to the east and west out of the proposed Lennar development and 400 potential new drivers into that area is absurd!

I also highly object to the commercial zoning being requested by Lennar Homes. We already have excess commercial property at 39th Avenue and we do not need more at 41st Avenue (that is 1/4 mile away). We definitely do NOT need commercial sites every quarter mile.

Two grocery stores have already failed at the 39th site and the anchor tenant sat empty for years until it was finally occupied by a Goodwill thrift store (a much lower rent occupant than a grocery store). The other smaller commercial suites surrounding the Goodwill, have also had difficulties finding and holding tenants. Overbuilt vacant commercial blight can be seen all around Phoenix and we don't need more of it here in our community!

Pinnacle Peak will never have the traffic pattern needed to support excessive commercial or residential use. To the west, Pinnacle Peak Road turns south at 59th Avenue into a two lane road and to the East, there are no significant population hubs, rather only light

industrial, before the road dead ends into the mountains.

On another note, Lennar built a community called Pinnacle Hills off of 55th Ave and Pinnacle Peak. In May of 1999, the owners of those homes brought a class action lawsuit against Lennar due to building on expansive soils and the extensive damage being done to their homes. I find it ironic that they want to build in this community again and this time on a FLOOD ZONE!! Don't you think that should be a red flag?? There is an earthen dam in this area and by coincidence, this exact parcel of land has been deemed in a non-flood zone as of 2018. Let's NOT let this same mistake happen again in our community!!

Please acknowledge receipt of this email and recognize that you have been elected by the people of this district to represent us to the best of your ability and that does not include putting money into Lennar's pocket.

Thank you,

Kimberly Lamb, Realtor

Report Suspicious

Hello,

This email is to inform our opposition to the land development proposed by Lenar Homes.

One of the reasons we chose to move to our property was the implied safety of developments like this not being built. Between the developing on Happy Valley road and now this proposed community the amount of traffic increase and population in general is unfavorable.

This specific land was zoned the way it is for a reason. It's recreational. These cookie cutter developments trying to preach "affordable housing" is honestly just a joke. It's all about putting money in someone's pocket and its not the surrounding community.

This is unfortunate and as a part of the community we feel undermined by the construction preparation already taking place as if this project is going forward no matter the opinion of the community.

I appreciate the opportunity to have an opinion on this.

Thank you,

Erica Knipp

Report Suspicious

To whom it may concern,

My husband Kyle Arme and myself Kelsey Arme are both residents in the Deer Valley district and live at 5003 West Saguaro Park Lane in Glendale. We attended the Public Meeting on 5/21/24 at the Goelet A Beuf Community Center. We are writing to dispute and oppose both of these companion cases.

This new housing development proposed for the 80.31 acres, located on the southwest corner of 36th Avenue and Pinnacle Peak road, will hurt the community and neighborhood in the following ways:

- 1) Disrupt the compatibility of the current recreational spaces in the south side of Pinnacle Peak Rd.
- 2) Cause an even larger traffic concern to the main road for existing residents, and the potential future.
- 3) Safety concerns for pedestrians and children in the area due to the increased traffic.
- 4) Clog our school system in the area. As a mother of two elementary kids in the neighborhood, all district schools are completely full, so the question arises, where will these additional children for this proposed community attend? What could this mean for the current children of the school district?
- 5) Wildlife preservation will be impacted by this development.
- 6) Flood Zoning for the proposed development is a high concern as this area does get impacted by heavy rains.
- 7) Noise complaints from future residents due to the recreational areas surrounding this development. The future tenants will not fully understand the noise issues of this area, causing a threat to the rec spaces getting shut down in the future due to their complaints that are sure to come post move in.

Please consider the above negative implications this proposal could cause. That being said, I do understand the housing crisis our city is experiencing, but this area simply will not and should not be an area to rectify that problem.

Thank you, Kelsey Arme 602-614-5207

May 21, 2024

To whom it may concern,

I am writing in reference to case number, Z-28-24-1. I would like to state my objections to the proposed re-zoning of the area for construction of single-family homes. Beyond the obvious of not wanting more traffic, congestion, pollution there is the concern of limited resources in the desert we live in. Overpopulation will be a serious strain on our water supply and other natural resources. Additionally, this city is in serious need of *affordable* housing, not more overpriced single-family dwellings. I would totally be in favor of a smaller section being used for something that is affordable for regular, hardworking people. Although, repurposing buildings in the city would be better instead of destroying the desert and upsetting the natural habitat of the native wildlife.

Thank you for your consideration.

Whitney Espinosa-Escobedo

**Report Suspicious** 

Good afternoon City Council Members,

Please explain why a housing development is planned for an area behind the flood control(Adobe) dam in an area reserved for Regional parks & Recreation.

We have lived in this area for almost 30 years and love the area. It doesn't need another commercial building or 600 houses. Pinnacle Peak is congested enough and the schools are overcrowded. There are limited ways out of this area if an emergency would occur and add another 1000 people with cars is irresponsible. Please deny this request for rezoning.

Thank you,

Chari & Wain Reed
