ATTACHMENT B

GENERAL PLAN AMENDMENT STAFF ANALYSIS

May 1, 2025

Application: GPA-2-25-Y

<u>Applicant</u>: City of Phoenix Planning Commission

Representative: City of Phoenix Planning and Development

Department

<u>Location</u>: Citywide

Request: Minor General Plan Amendment to develop policy

guidance on data centers

Planning Commission

Hearing Date:

June 5, 2025

<u>Staff Recommendation</u>: Approval

FINDINGS:

- 1) The proposal will act as the policy guidance for data centers which supports the Zoning Ordinance text amendment Z-TA-2-25-Y for regulations related to data centers.
- 2) The proposal will guide data center development away from cores, centers, and corridors, where mixed-use, walkable communities are envisioned and will guide data centers to blend with the surrounding environment while limiting negative impacts to existing communities.
- The proposal is consistent with and relates to other adopted policies in the General Plan, such as the Blueprint for a More Connected Phoenix, including Cores, Centers, and Corridors, Village Cores, Employment Corridors, and Tech Corridors; Create a Network of Vibrant Cores, Centers, and Corridors; and Build the Most Sustainable Desert City, including Water Sensitive Planning, Green Building, Energy Infrastructure, and Community Shade.

BACKGROUND

In 2024, the Mayor and City Council directed City staff to create new policy guidance and zoning regulations related to data centers, in response to the increased frequency and development of these types of facilities. Data centers house a large collection of technological equipment designed to store, process, and manage vast amounts of digital information. One major concern with data centers is that their energy demand is expected to increase significantly, in large part due to Artificial Intelligence. Another major concern is the scale at which these types of facilities are built and how they can negatively affect the surrounding community they are built in. This General Plan Amendment would add a section in the 2025 General Plan to provide policy guidance for data centers addressing the major concerns they pose to the community and to the city.

Staff researched other cities in the nation that have adopted ordinances related to data centers for best practices and looked at ways Phoenix could enhance those ordinances. Text Amendment Case No. Z-TA-2-25-Y is a request to amend the Zoning Ordinance to add a definition for data centers, clarify which zoning districts they are permitted in, and add performance standards, development standards, and design guidelines specific to data centers. This General Plan Amendment would act as the adopted policy guidance for the Text Amendment, and future rezoning requests where data centers are proposed.

RELATIONSHIP TO GENERAL PLAN CORE VALUES AND PRINCIPLES CREATE A NETWORK OF VIBRANT CORES, CENTERS AND CORRIDORS

TRANSIT ORIENTED COMMUNITIES.

Data centers are very large in scale and do not provide the type of scale and mix of uses desired for transit-oriented communities. The proposal will guide data centers to be located away from high-capacity transit stations, where mixed-use, walkable communities are envisioned for transit-oriented communities. This will protect transit-oriented communities from this type of large-scale development that is incompatible with the vision for transit-oriented communities.

BUILD THE MOST SUSTAINABLE DESERT CITY

 GREEN BUILDING; GOAL: Establish Phoenix as a leader in green and sustainable building through the use of green-sustainable building techniques in private and public development.

The proposal will adopt energy and sustainability policy specifically for data centers, encourage that they are designed utilizing green construction codes to maximize energy efficiency.

CONCLUSION AND RECOMMENDATION

Staff recommends approval of GPA-2-25-Y. The proposed General Plan policy language will act as the adopted policy guidance for data center development. The companion text amendment case, Z-TA-2-25-Y, will build on this policy guidance and create zoning regulations related to data centers.

Exhibit A

Staff proposed language that may be modified during the public hearing process is as follows:

DATA CENTERS

WITH CONTINUAL ADVANCEMENTS IN TECHNOLOGY, SUCH AS ARTIFICIAL INTELLIGENCE (AI) AND THE DIGITAL "CLOUD", THERE HAS BEEN A GROWING DEMAND TO CONSTRUCT DATA CENTERS IN ORDER TO SUPPORT THE DIGITAL WORLD. DATA CENTERS HOUSE A LARGE COLLECTION OF TECHNOLOGICAL EQUIPMENT DESIGNED TO STORE, PROCESS, AND MANAGE VAST AMOUNTS OF DIGITAL INFORMATION. ALTHOUGH DATA CENTERS ARE INFRASTRUCTURE FOR ADVANCING TECHNOLOGY THAT MANY COMPANIES AND ORGANIZATIONS NOW RELY ON, THEY ALSO COME WITH POTENTIAL CHALLENGES, INCLUDING A LOSS OF LAND FOR JOBS AND HOUSING, NOISE POLLUTION, SIGNIFICANT ENERGY DEMAND, INACTIVE FRONTAGES ALONG PUBLIC STREETS, AND CONFLICTS WITH THE CITY'S APPROACH OF MAXIMIZING TRANSPORTATION INVESTMENTS WITH WALKABLE COMMUNITIES. MEASURES SHOULD BE TAKEN TO IDENTIFY AREAS THAT ARE MOST APPROPRIATE FOR DEVELOPMENT AND TO ADDRESS THE NOISE, ENERGY, AND DESIGN ISSUES THAT THEY COME WITH.

LOCATION CRITERIA POLICY

- 1. LOCATE AWAY FROM IDENTIFIED CORES, CENTERS, AND CORRIDORS WHERE HIGHER-INTENSITY DEVELOPMENT IS ENCOURAGED FOR MIXED-USE, WALKABLE COMMUNITIES.
- 2. LOCATE IN IDENTIFIED
 REDEVELOPMENT AREAS
 WHERE INFRASTRUCTURE
 INVESTMENTS ARE NEEDED.

DESIGN POLICY

- 1. PROVIDE ENHANCED
 LANDSCAPE SETBACKS WITH
 A GREATER DENSITY OF
 TREES AND SHRUBS.
- 2. PROVIDE DETACHED
 SIDEWALKS WITH
 PEDESTRIAN AMENITIES AND
 SHADE.
- 3. PROVIDE ART IN PRIVATE DEVELOPMENT.
- 4. UTILIZE DARK SKY LIGHTING.
- 5. MINIMIZE NOISE POLLUTION TO NEARBY RESIDENTIAL THROUGH USE OF LARGE SETBACKS, STRUCTURAL SCREENING ELEMENTS, ARCHITECTURALLY

- INTEGRATED STRUCTURES, AND/OR LANDSCAPING.
- 6. PROVIDE VISUAL INTEREST TO ADJACENT PROPERTIES AND RIGHTS-OF-WAY WITH ENHANCED ARCHITECTURAL DESIGN THAT INCLUDES A VARIATION IN COLORS, MATERIALS, ARTICULATION, FENESTRATION, AND BREAKING OF MASSING, RATHER THAN A CONCRETE BOX THAT HAS A NEGATIVE VISUAL APPEARANCE TO THE SURROUNDING COMMUNITY.

ENERGY AND SUSTAINABILITY POLICY

- 1. PROVIDE A WILL-SERVE
 LETTER FROM THE LOCAL
 UTILITY COMPANY TO
 ENSURE THAT THERE IS
 SUFFICIENT CAPACITY IN THE
 POWER GRID TO SUPPLY THE
 DATA CENTER WITH ITS
 REQUIRED ENERGY DEMAND.
- 2. ENCOURAGE USE OF THE PHOENIX GREEN CONSTRUCTION CODE TO MAXIMIZE ENERGY EFFICIENCY OF DATA CENTER BUILDINGS.
