Re: Phoenix Lock Safe Storage Case # Z-2-23 and #Z-SP-1-23

Dear Members of the Phoenix North Mountain Village Committee, Phoenix Planning Commission and Phoenix City Council members,

I am in favor of and support the Rezone Case Z-2-23 and Special Permit Case Z-SP-1-23 for Lock Safe Storage located at the southwest corner of Cactus Road and 49th Drive which will allow the site to develop with an indoor storage facility with a height waiver up to 40' tall and some outdoor storage. We find the proposed site plan and elevations to address our concerns about traffic, lighting and height and helps address existing issues with transients and encampments accessing our community from the floodway parcels and canal. The proposed landscaping, perimeter wall and lighting will provide a positive addition to our area.

Again, we are in support of this proposed use and proposed entitlements.

Please contact me with any questions at:

Name: Christopher Ruiz

Thank you.
