I wanted to state my objection to the continued use of a landscape business on this property. This commercial business has apparently been operating illegally on a residential zoned parcel for more than 10 years. The business is an eyesore from the public street and creates a significant amount of dust which is a serious air quality issue. The business is surrounded by warehouses which I believe is the intent of the CP/GCP zoning, not a dusty landscape business operating out of an old house. I do not believe it is in the city's best interest, nor that of the neighborhood nor community to allow this business to continue to operate on this parcel.
