Introduction and Goals

Introduction

The Phoenix Office of Arts and Culture is the City's designated local arts agency. It champions, promotes, and supports the local arts and culture community, making Phoenix a great place to live, work, and visit.

The Phoenix Office of Arts and Culture (POAC) is a local and national leader in the public art field and has garnered numerous awards for design excellence, including Design for Transportation awards from the U.S. Department of Transportation and Public Art Network Year in Review awards from Americans for the Arts.

Established in 1986, the Public Art Program works with local, national, and international artists to create a more beautiful and vibrant city. By ordinance, one percent of the Capital Improvement Program is utilized to enhance the design of public buildings, infrastructure, and spaces within the City of Phoenix. Since its inception, the program has completed more than 200 major projects, including airport terminals, community centers, streetscapes, parks, canals, transit centers, bridges, underpasses, recycling centers, and public safety buildings.

A competitive procurement process identifies artists for public art projects. The process utilizes a selection panel containing art and design professionals, project stakeholders, and community representatives relevant to the project's location. City staff and project team members often serve as non-voting advisors to the panel. Panelists are responsible for reviewing applications submitted in response to a Call to Artists, interviewing finalists, and making recommendations to the Arts and Culture Commission, a volunteer citizen advisory board appointed by City Council. The quality of work, suitability for the project, and the ability to work well with the community and other design professionals influence the selection panel's final recommendations. The Phoenix City Council approves the final recommendation before the contract is executed and artists begin work.

POAC develops the Public Art Plan annually with input and assistance from the Mayor and City Council, city residents, artists, city departments that provide public art project funding, and the Arts and Culture Commission. The timing of the plan coincides with the annual Capital Improvement Program budgeted per fiscal year (July 1 – June 30; for example, FY 2025-2026 = July 2025 – June 2026). The plan outlines several project types, including design team projects, permanent commissions, purchases of existing artwork, temporary commissions, art refurbishment and retrofits, and master planning. Overhead costs to administer the projects in the Plan, including staff costs, are approximately 15% of the total five-year budget.

Goals

Public art projects within the FY 2025-2030 Public Art Plan are prioritized based on opportunities to integrate artwork into individual Capital Improvement Program projects and their potential impact on the neighborhood and the broader arts community. These decisions are made closely with funding departments and City Council offices. Under these parameters, the FY 2025-2030 Public Art Plan focuses on the equitable distribution of funds, as allowable by the percent-for-art ordinance, and the diversification of the public art collection through broadening the types of project opportunities and continued outreach to new artists and arts organizations. This year, only a few new projects were added based on the City's focus on General Obligation Bond projects (previously included in the Plan) and the addition of grantfunded projects.

Additionally, POAC strives to develop project opportunities and program policies that align with strategic goals outlined in several long-range planning documents, like the Climate Action Plan and the Shade and Tree Master Plan. Some of these efforts are realized through the FY 2025-2030 Public Art Plan, like promoting the use of sustainable materials and sourcing methods to commissioned artists and proactively seeking community input on project opportunities. As the FY 2025-2030 Public Art Plan is implemented, POAC will continue integrating these important citywide goals.

FY 2024-2025 Completed Public Art Projects

CAPITAL IMPROVEMENT PROGRAM PROJECTS

Solano Park Council District 4

Artists Tom Drugan and Laura Haddad were contracted to create artwork for Solano Park, with a particular focus on the skate park. The artwork, titled *Pipe Dreams*, was designed in partnership with the Parks Department, the local skate community, and area residents. It references a late 1970s skate spot known as the "Desert Pipes," a series of large concrete pipe sections temporarily stockpiled in the desert. The artwork includes three steel pipes; the outer pipes are skateable. This project was dedicated in November 2024.

Perry Park Council District 8

This artwork by Lisa Bernal Brethour depicts a modern "tortoise and the hare" story with 9 lithomosaics scattered throughout the park. At the center of the park, a lithomosaic labyrinth with a night-blooming cereus desert flower encourages visitors to move like a bee into the center of the flower. In the skate plaza, pictured right, a trompe l'oeil lithomosiac depicts a canyon for skaters to jump that complements other obstacles in the plaza. Also at the skate plaza are seven vertical shade panels (pictured on the cover) that provide much needed respite for skaters. This project was dedicated on April 5, 2025.

305 W. Washington Mural Council District 7

Artist Ariana Enriquez completed an interior mural for the utility payment center lobby at 305 W. Washington. The mural embodies the calm characteristics of water by using a cool color palette of blues, greens and violets. The foreground is abundant with botanicals, birds and butterflies that are native to Arizona.

EXTERNAL AND INTERNAL PARTNERSHIP PROJECTS

HIV/AIDS Awareness Mural Council District 7

Mayor Kate Gallego, in partnership with the Phoenix Office of Arts and Culture, Southwest Center, One N Ten, and Aunt Rita's Foundation, and with support from Artlink Inc., commissioned a semipermanent mural for the south wall of The Parsons Center for Health and Wellness located in central Phoenix.

The goal of this project was to raise awareness about HIV prevention, testing, and treatment, inspire community engagement, and reduce stigma around HIV. It is to serve as a visual, public reminder of the importance of proactive health measures and support for those affected by HIV, encouraging people to take action through education, testing, and advocacy while enhancing the experience of those seeking health, wellness, and community services from the organizations located on the property.

Sidewalk Shade project City-wide (Partial completion)

Providing shade for pedestrians and bicycle riders can improve public health and the economic vitality of communities. The City will construct 19 shade structures in high-traffic public rights-of-way at major intersections and crosswalks where people are forced to wait for signal changes. Three local artists, Isaac Caruso, Heidi Dauphin, and Sara Altieri, were hired to contribute aesthetic designs to the canopies. The Office of Heat Response and Mitigation, the Streets Transportation Department, and the Phoenix Office of Arts and Culture are working in partnership to complete this project by Spring 2026.

Canopy Design by Isaac Caruso

Nature Fest PHX Temporary Installation District 8

In partnership with the Office of Environmental Programs and the Parks and Recreation Department, artist Martin Moreno was commissioned to create an interactive artwork for Nature Fest PHX located at the Rio Salado Habitat Restoration Area. The temporary interactive sculpture, *Pachamama*, was featured as part of the annual event that celebrates urban green spaces, wildlife, and community. Throughout the event, Martin guided attendees to paint the sculpture that honored mother earth and her habitat around Rio Salado (Salt River).

FY 2024-2025 Completed Refurbishment and Retrofit Projects

Our Shared Environment Council District 4

Specialists experienced with the building material adobe completed extensive renovations of Our Shared Environment by Marylin Zwak. Several issues were addressed, including water damage, cracking, and soot from vehicle exhaust. The wall treatments are at the intersection of SR51 and Thomas Road. The 3-year project was completed in the spring of 2025.

Desert Spring Council District 2

This artwork was damaged by a vehicular crash in 2023. Several linear feet of damage occurred to the mosaic glass tiles incorporated into bridges along Desert Sonoran Blvd. Pedestrians and cyclists using the sidewalk can appreciate the intricate design of desert flora created by artists R & R Studios. Repairs were completed in February of 2025.

River of Shade Council District 8

This artwork, located at Harmon Park, was created in 2010 and needed several repairs. Artist Stacy Levy designed paths embedded with colorful glass invoking the flow of water that are integrated into the design of the park. The project repaired cracked and uneven pavement and replaced worn areas of the embedded glass.

FY 2024-2025 Awards and Accomplishments

Bloomberg Philanthropies Public Art Challenge Award

In October 2023, Bloomberg Philanthropies selected Phoenix as one of eight winners of its prestigious Public Art Challenge. This unique program supports temporary public art projects that address important local civic issues in cities nationwide. Phoenix's project, *¡Sombra! Experiments in Shade,* received \$1,000,000 to commission nine artists to create shading and cooling installations in response to extreme urban heat.

These temporary projects were installed at parks across
Phoenix in Spring 2025 and will be on view through
September 2025. The project will conclude with a celebration
at Memorial Hall at Steele Indian School Park on September 20.

US Water Prize – Outstanding Artist Bobby Zokaites

Nominated by the Water Services Department, artist Bobby Zokaites was selected as a winner for the 2025 US Water Prize in the Outstanding Artist category. According to the US Water Alliance, Bobby has "gone above and beyond in terms of One Water solutions." The award will be made public at their annual conference, One Water Summit, in July 2025.

The Rio Reimagined Project is a vision to revitalize the Rio Salado (Salt River), Aqua Fria, and Gila Rivers, and the region by transforming over 45 miles of the river stretching from the Salt River Pima Maricopa Indian Community at the eastern most boundary to the City of Buckeye to the west and encompassing more than 78,000 acres. Artists will be selected at several phases of the project to engage the community and design permanent and temporary artwork to enhance the visitor experience. This project is in the planning phase.

FY 2025-2030 Multi-Year Initiatives

Completing the following projects requires significant funding resources over the next five fiscal years. Funding for the planning and implementation of these projects is included in the FY 2025-2030 Public Art Plan. Funding of all projects is subject to City Council approval through future plans.

General Obligation Bond Program

On November 7, 2023 Phoenix voters passed the City Council approved \$500 million General Obligation (GO) Bond Program. GO Bond programs help to fund critical infrastructure and rehabilitation needs of City facilities such as parks, libraries, fire and police stations, affordable housing, streets, and storm drains. Approved projects are prioritized and allocated over the five-year period of fiscal year 2024-2025 to fiscal year 2028-2029 and included in the Preliminary Capital Improvement Program (CIP) scheduled approved by City Council on March 19, 2024. Each of the four proposition includes a percent-for-art calculation which must be spent on projects in each proposition. A breakdown of proposed public art projects is in the next section.

Artist Initiatives

On-going temporary installations provide crucial professional development opportunities for emerging artists and those new to public art. Temporary installations can also activate underutilized spaces and provide neighborhoods with new ways to engage with artists. This program is guided by the Office of Arts and Culture's Temporary Art Guidelines.

Collaborative Neighborhood Projects

Artists will be selected to work directly with neighborhood and business associations, such as the HUB (Hatcher Urban Businesses) and the Bell Road Business Alliance, to enhance parks, business corridors, and other community amenities. These enhancements foster community collaboration and external partnerships that expand the reach of the public art program.

Community Water Facilities Improvements

Over the years, multiple artists have been contracted to work with the community and the Water Services Department to improve the security and appearance of community water facilities citywide, including well sites and lift stations.

Phoenix Sky Harbor International Airport

Phoenix Sky Harbor International Airport's new terminal modernizations represent the City's most significant opportunity to reach the widest public with integrated public art and design. PSHIA handles more than 40 million passengers annually. ACD staff continue to work with Aviation staff and its design teams to carry out a comprehensive plan to integrate significant art and design to enhance travelers' experience. Projects will be implemented in step with the airport modernization phases.

Public Works Recycling and Sustainability Initiative

ACD has worked with the Public Works Department since 1990 to involve artists in the design of innovative recycling centers, and in building awareness of the need for recycling and sustainable resource management. Artists will be contracted to create artworks that expand awareness about recycling and sustainable resource management by introducing new ways to reuse materials and bolster City efforts to increase recycling citywide.

Rio Reimagined

Rio Reimagined is the Valley's most impactful green infrastructure project in a century. Rio Salado, or the Salt River, is a historically significant and underutilized natural resource reimagined as a unifying public space. A creative and collective effort is underway to integrate priorities of public open space, environmental quality, housing, transportation, economic and workforce development, community sustainability, and resilience. ACD staff work with the Planning Department to identify and integrate permanent and temporary public art opportunities.

Shade, Cooling, and Heat Mitigation

Artists will be contracted to work with the community and various City departments to enhance the pedestrian experience by increasing shade options and improving shaded connectivity. The enhancements will be coordinated with City efforts to reduce the impact of urban heat and improve mobility citywide through initiatives like Cool Corridors. The initiative also includes supporting funds for the Bloomberg Philanthropies Public Art Challenge grant.

Tres Rios Wetlands

Adam Kuby has been selected to work with City departments, consultants and the community to create significant environmental recreation and education opportunities at Tres Rios Wetlands. This project is part of this multi-year effort to improve the seven-mile, 1,500-acre wetland at the confluence of the Salt and Gila Rivers in southwestern Phoenix.
