Byron Easton, Planning Hearing Officer  
City of Phoenix Planning & Development Dept.  
200 West Washington Street, 2<sup>nd</sup> Floor  
Phoenix, AZ 85003

RE: Planning Hearing Officer Application No. PHO-1-24—Z-19-22-7(8)  
Northeast Corner of 39<sup>th</sup> Avenue and Vineyard Road  
Modified Request

Dear Mr. Easton:

We represent Meritage Homes (“Meritage”). Meritage is proposing to develop approximately 11.10 gross acres of property located at the northeast corner of 39<sup>th</sup> Avenue and Vineyard Road (the “Site”) in the Laveen Village. The purpose of this letter is to modify the stipulation modification requests associated with the referenced Planning Hearing Officer (“PHO”) application previously submitted for the Site this past March.

Pursuant to the City Council’s approval of rezoning application Z-19-22-7(8) on September 7, 2022, the Site was rezoned to R-2 (Multifamily Residence) to accommodate the development of a for-rent, multifamily residential development consisting of 110 units (the “2022 Approval”). The 2022 Approval is subject to 18 stipulations. On behalf of Meritage, we are requesting to modify a few of the approval stipulations associated with the 2022 Approval to accommodate the development of 64 for-sale, single-family detached homes with private garages and yards and associated amenity and landscape enhancements (the “Project”) on the Site.

In response to feedback provided during last month’s Laveen Village Planning Committee (“VPC”) Meeting, Meritage is modifying the PHO application to withdraw the request to delete stipulations two (2), six (6), and 7(a) of the 2022 Approval that pertained to garage door embellishments, tree caliper sizes, and the shading of sidewalks (collectively, the “Withdrawn Requests”). Furthermore, Meritage is amending the deletion and modification requests previously submitted for stipulations one (1), three (3), five (5), and 14 of the 2022 Approval. Specifically, Meritage is proposing the following modifications to stipulations one (1), three (3), five (5), and 14 of the 2022 Approval (collectively, the “Amended Requests”):

1. The development shall be in general conformance to the site plan ~~and open space exhibit date stamped March 17, 2022 JUNE 17, 2024~~, and elevations date stamped ~~July 11, 2022 JUNE 17, 2024~~, as modified by the following stipulations and approved by the Planning and Development Department.
3. The maximum building height shall be 30 feet, except THAT LOTS 4, 9, 10, 15, 16, 21, 24, 29, 30, 36, 42, 43, 48, 49, 54, 55, 58, 59, 60 AND 61 SHOWN ON THE SITE PLAN DATE STAMPED JUNE 17, 2024 ~~units along the north and east sides of the site~~ shall be limited to a maximum building height OF ONE-STORY ~~(of 18 feet)~~, as approved by the Planning and Development Department.
5. The developer shall provide the option for EV-Ready (wiring for electric vehicle charging) garages ~~and a minimum of 10 EV charging stations~~.
14. A minimum of SIX (6) ~~28~~ bicycle parking spaces shall be provided through Inverted U and/or artistic racks located near ~~building entrances~~ or amenity areas and installed per the requirements of Section 1307.H of the Phoenix Zoning Ordinance, as approved by the Planning and Development Department. Artistic racks shall adhere to the City of Phoenix Preferred Designs in Appendix K of the Comprehensive Bicycle Master Plan.

In essence, Meritage would like to modify a few of the stipulations associated with the 2022 Approval to accommodate the development of single-family for-sale homes instead of the multifamily rental product previously planned for the Site. Consistent with the multifamily development previously approved for the Site, the Project will provide significant landscape and open space enhancements. At the same time, Meritage's proposal represents approximately a 42 percent reduction in the number of residences currently entitled for the Site.

The proposed modification to stipulation one (1) pertaining to general conformance to the site plan will allow for the development of single-family homes on the Site, as opposed to the more-dense multifamily rental product previously approved. The proposed modification to stipulation three (3) pertaining to building height combined with the Project's provision of open spaces and landscape buffers along the north property line, as well as the provision of a significant buffer (landscape area and new local street) between the Project's homes and residences adjoining the Site to the east, will satisfy the original intent of the stipulation for providing a transition between the new development and adjoining residences. The proposed modifications to stipulations five (5) and 14 are reflective of the Project's single-family product type including a private garage for each home where electric vehicles may be charged and bicycles may be securely stored.

In summary, Meritage intends to leave the vast majority of requirements established by the 2022 Approval in place as is. The purpose of the Withdrawn and Amended Requests is to respond to feedback provided by the Laveen VPC and to restore elements of the 2022

Approval imperative to the community. In making the Withdrawn and Amended Requests, Meritage has preserved the overall design intent (enhanced landscape improvements, substantial open space area, appropriate transition with adjoining residences etc.) of the 2022 Approval. At the same time, the Project will provide new for-sale single-family homes that are needed and desired within the Laveen Community while also reducing the density currently entitled for the Site by approximately 42 percent.

Thank you for your consideration of this modified request. Please let me know if you need any other information to evaluate this request. We look forward to discussing these proposed modifications with you at the upcoming hearing.

Sincerely,  
GAMMAGE & BURNHAM, PLC

Dear Applicant:

RE: Z-19-22-7 – Northeast corner of 39th Avenue and Vineyard Road

Please be advised that the Phoenix City Council, in accordance with the provisions of Section 601 of the Zoning Ordinance, as amended, has on September 7, 2022, approved Zoning Ordinance # G-7023.

Development and use of the site is subject to compliance with all applicable codes and ordinances.

Sincerely,

A handwritten signature in blue ink that reads "Joshua Bednarek".

ORDINANCE G-7023

AN ORDINANCE AMENDING THE ZONING DISTRICT MAP  
ADOPTED PURSUANT TO SECTION 601 OF THE CITY OF  
PHOENIX ZONING ORDINANCE BY CHANGING THE ZONING  
DISTRICT CLASSIFICATION FOR THE PARCEL DESCRIBED  
HEREIN (CASE Z-19-22-7) FROM R1-8 (SINGLE-FAMILY  
RESIDENCE DISTRICT) TO R-2 (MULTIFAMILY RESIDENCE  
DISTRICT).

---

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF PHOENIX, as  
follows:

SECTION 1. The zoning of an 11.08 acre site located at the northeast corner of 39th Avenue and Vineyard Road in a portion of Section 34, Township 1 North, Range 2 East, as described more specifically in Exhibit "A," is hereby changed from "R1-8" (Single-Family Residence District) to "R-2" (Multifamily Residence District).

SECTION 2. The Planning and Development Director is instructed to modify the Zoning Map of the City of Phoenix to reflect this use district classification change as shown in Exhibit "B."

SECTION 3. Due to the site's specific physical conditions and the use district applied for by the applicant, this rezoning is subject to the following stipulations, violation of which shall be treated in the same manner as a violation of the City of Phoenix Zoning Ordinance:

Mod

1. The development shall be in general conformance to the site plan and open space exhibit date stamped March 17, 2022, and elevations date stamped July 11, 2022, as modified by the following stipulations and approved by the Planning and Development Department.
  2. All garage doors shall have decorative embellishments such as window panels, added materials surrounding the door, and/or trellises, as approved by the Planning and Development Department.

Mod

3. The maximum building height shall be 30 feet, except units along the north and east sides of the site shall be limited to a maximum building height of 18 feet, as approved by the Planning and Development Department.
  4. The common open space area shall provide a shaded playground element, as approved by the Planning and Development Department.

Mod

5. The developer shall provide the option for EV-Ready (wiring for electric vehicle charging) garages and a minimum of 10 EV charging stations.
6. Required landscape setbacks shall be planted with minimum 50-percent 2-inch caliper and 50-percent 3-inch caliper large canopy drought-tolerant trees, 20 feet on center or in equivalent groupings, with 5-gallon shrubs per tree, as approved by the Planning and Development Department.
7. Sidewalks along 39th Avenue and Vineyard Road shall be detached with a minimum 5-foot-wide landscaped strip located between the sidewalk and back of curb and planted to the following standards, as approved by the Planning and Development Department:
  - a. Minimum 3-inch caliper, large canopy, single-trunk, shade trees placed to provide a minimum of 75% shade on adjacent sidewalks.
  - b. Drought tolerant shrubs and vegetative groundcovers with a maximum mature height of 24 inches to provide a minimum of 75% live coverage at maturity.
  - c. Where utility conflicts arise, the developer shall work with the Planning and Development on an alternative design solution consistent with a pedestrian environment.
8. The developer shall dedicate a minimum of 30-feet of right-of-way and construct the east side of 39th Avenue, as approved by the Planning and Development Department.
9. The developer shall dedicate a minimum of 30-feet of right-of-way and construct the north side of Vineyard Road, as approved by the Planning and

**Development Department.**

10. The developer shall underground all electrical utilities within the public right-of-way that are impacted by or need to be relocated as part of the project. The developer shall coordinate with affected utility company for their review and permitting.
11. The developer shall underground and relocate any existing irrigation facilities outside of City right-of-way along 39th Avenue. The developer shall Contact SRP to identify existing land rights and establish appropriate process to relocate facility. Relocations that require additional dedications or land transfer require completion prior to obtaining plat and/or civil plan review approval.
12. The developer shall make reasonable efforts to work with the Street Transportation Department and neighbors in proximity to the site to identify improvements, including speed bumps, roundabout, and/or similar improvements, for mitigating vehicle speeding on Vineyard Road and 39th Avenue adjacent to the site agreed upon by neighbors, the Street Transportation Department and developer in accordance with the City's procedures for installing such improvements.
13. The developer shall construct all streets within and adjacent to the development with paving, curb, gutter, sidewalk, curb ramps, streetlights, median islands, landscaping, and other incidentals, as per plans approved by the Planning and Development Department. All improvements shall comply with all ADA accessibility standards.

Mod 14. A minimum of 28 bicycle parking spaces shall be provided through Inverted U and/or artistic racks located near building entrances or amenity areas and installed per the requirements of Section 1307.H. of the Phoenix Zoning Ordinance, as approved by the Planning and Development Department. Artistic racks shall adhere to the City of Phoenix Preferred Designs in Appendix K of the Comprehensive Bicycle Master Plan.

15. If determined necessary by the Phoenix Archaeology Office, the applicant shall conduct Phase I data testing and submit an archaeological survey report of the development area for review and approval by the City Archaeologist prior to clearing and grubbing, landscape salvage, and/or grading approval.
16. If Phase I data testing is required, and if, upon review of the results from the Phase I data testing, the City Archaeologist, in consultation with a qualified archaeologist, determines such data recovery excavations are necessary, the applicant shall conduct Phase II archaeological data recovery excavations.
17. In the event archaeological materials are encountered during construction, the developer shall immediately cease all ground-disturbing activities within a 33-

foot radius of the discovery, notify the City Archaeologist, and allow time for the Archaeology Office to properly assess the materials.

18. Prior to preliminary site plan approval, the landowner shall execute a Proposition 207 waiver of claims form. The waiver shall be recorded with the Maricopa County Recorder's Office and delivered to the City to be included in the rezoning application file for record.

**SECTION 4.** If any section, subsection, sentence, clause, phrase or portion of this ordinance is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions hereof.

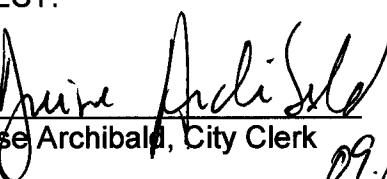

PASSED by the Council of the City of Phoenix this 7th day of September, 2022.

PHO-1-24--Z-19-22-7(8)

Stipulated Elevations

Hearing Date: May 15, 2024

25. **Application #:** **Z-19-22-7**  
From: R1-8  
To: R-2  
Acreage: 11.08  
Location: Northeast corner of 39th Avenue and Vineyard Road  
Proposal: Multifamily residential  
Applicant: Prestige BeckShar Development, LLC  
Owner: Laveen Land, LLC  
Representative: Michael T. Maerowitz, Snell & Wilmer

Ms. Racelle Escolar stated that Item No. 25 is Z-19-22-7, a request to rezone 11.08 acres located at the northeast corner of 39th Avenue and Vineyard Road from R1-8 (Single-Family Residence District) to R-2 (Multifamily Residence District) to allow multifamily residential.

The Laveen Village Planning Committee recommended approval, per the staff recommendation (Addendum A Staff Report) with a modification and additional stipulations by an 8 to 0 vote. The Village Planning Committee recommended modifying Stipulation No. 1 to reference updated elevations presented at the meeting, and adding stipulations regarding traffic mitigation along Vineyard Road, adding a shaded playground element in the open space area, and adding the option for EV-Ready garages and a minimum number of EV-Ready charging stations.

Staff recommends approval, per the Laveen Village Planning Committee recommendation.

Ms. Escolar stated that the applicant was available to answer questions.

Chairman Howard asked the applicant to come up and make a very brief presentation on this item, because he knows that there have been some changes since this was heard at the Village. He thought it would be good to go over a couple of those changes prior to voting.

Mr. Michael T. Maerowitz stated that he would forgo a formal presentation due to the length of tonight's meeting. He stated that they are in support of the staff recommendation with the stipulations as modified by the Laveen Village Planning Committee. They do not have any modifications to those.

Chairman Howard asked if this item is the one where the applicant detached the units after the Village hearing.

Mr. Maerowitz responded, no, that was not this case.

Chairman Howard apologized for the mix up. He stated that since there were no speakers in support or opposition to this case, he would invite a motion.

Commissioner Busching asked to speak. She stated that she drove this property and agrees that it is in bad need of development. People have to drive on Vineyard Road on a one-lane road and share the road, which is difficult, and 39th Avenue is not built out. But this is a property in the middle of a lot of single-family with lush landscaping, open areas, amenities that are open to everybody. This is going to put a four-walled, single-family, for-rent property in the middle of it. The people that are in the single-family, for-rent are going to be able to use all of the amenities in the neighborhood, but the neighborhood is not going to be able to use any of their amenities. She stated that she had asked the applicant for a wall plan. They said, maybe they could get it. She stated that there are certainly going to be walls all along 39th Avenue and all along Vineyard Road. They do not know if those walls are going to be attractive to the neighborhood or going to make this property look like a prison in the middle of a very nice single-family neighborhood. She is not in favor of this project.

Commissioner Perez commented that when it comes to Laveen cases, she makes sure she touches base with the Chair or the Vice-Chair. She stated that they were happy with this project. The Laveen Village Planning Committee goes through their stipulations and does their due diligence. Most of the applicants that go to Laveen also have to go through Laveen Citizens for Responsible Development (LCRD), which also approved this case. She understands what Commissioner Busching was saying; however, for Laveen to vote 8 to 0 and be happy with this project, she would support it. If they approved it and are comfortable with it and the way it is going to look, along with their stipulations, she thinks they should move it forward. There was no one from Laveen on the list of participants to speak.

Vice-Chairwoman Mangum stated that she is very familiar with this area and agrees with Commissioner Perez. It is going to add a lot to the neighborhood. She respects what Commission Busching stated; however, she thinks it is a really good project, and she will be in support of it.

Chairman Howard stated that he would echo that. It is a good project. He thinks that the elevations, in particular, are very attractive. He asked Commissioner Busching if her objections were that it has walls, or is it something specific that she wants to see regarding those walls. He stated that it sounded like there was some concern that the surrounding neighborhood would not be able to use the amenities, however, it is a private community with private amenities. He was not sure that he totally understood what the alternative is.

Commissioner Busching responded that she thinks it is a great project for a different location. It is not a great project for this location, because this location is surrounded by properties that are not walled or gated. This being a for-rent project, people will be able to use the amenities of the other projects that are around there and the converse is not true. That is one big issue for her. Another big issue is the fact that they have no idea what all these single-family homeowners in the neighborhood are going to be looking at on all these walls

that are being created. She thinks that a village needs to know if they are going to be looking at walls when they drive around every day, what they are going to look like, and whether they are going to be happy with them.

Commissioner Gaynor asked Mr. Maerowitz what the wall is going to look like.

Mr. Maerowitz stated that was a great question. They have not gotten to the point in the site plan review process with the City about what exactly the wall is going to look like. That stated, he appreciates the comments from all the Commissioners. They will comply with the City's design guidelines that are applicable to perimeter walls in Section 507. The perimeter wall will be a decorative wall that will match the architecture of the rest of the project, in terms of colors. He added that this is a development team that has gone above and beyond the typical development standards, in terms of design. He thinks that is evident by the unanimous recommendation approval by the Village. They will not short circuit that effort with a wall that is a plain block wall. It will be a decorative wall with colors that match the high quality and enhanced architecture of the rest of the community.

Commissioner Gaynor thanked Mr. Maerowitz for his explanation. He stated that he lives in a neighborhood that is surrounded by walls. People who have driven into his neighborhood to visit them from Salt Lake City, Detroit, and Mexico love the way the neighborhood looks, because of the trees and brush added to the area. He is surrounded by walls, and he loves coming into his neighborhood and it looks beautiful. He thinks that the City has been very strict with what the design guidelines are. He is going to rely on the Village. It sounded to him like they really went through this process. It is their village and he would support the project.

Commissioner Busching responded to Commissioner Gaynor and Mr. Maerowitz. Yes, the design guidelines do provide for enhanced design on walls. Unfortunately, what she has been seeing is that there are many situations where the developers do not comply, and it is up to the inspectors to enforce it. Inspectors find that there are a lot of other issues that are much more pressing than how the perimeter walls look, so they do not do it, and they end up with block walls. Nobody wants to take down a wall that is already up, so they end up with walls that are not in accordance with the design guidelines. That is why she is really concerned for the people that have to look at them.

Chairman Howard stated that he wanted to be careful that they are not creating obstacles that are out of order for applicants. If this is really something that is part of the site plan approval or part of the construction documents, he wanted to be careful that they did not make it an imposition at this stage in the process, before an applicant knows that they have the land use that they would need to have in order to obviously spend the money on those subsequent designs. He asked staff if a wall plan is required at this stage in the process. If it is, he thinks that they should defer to that. If it is not, then he thinks that they should defer to whatever the policies and procedures of staff are.

Commissioner Perez asked if the design could come back to the Village or go through a PHO regarding the design element. She stated that would satisfy Commissioner Busching if they were able to review it before it went forward, to add something where they would come back to the Village. They have done it for a lot of other cases, where they have gone back to Laveen for design review to make sure that they are meeting it, such as wanting a rural look. Many of the zoning attorneys at this meeting knows that they have gone back to Laveen to make sure that they looked at those. If that would satisfy Commissioner Busching, then maybe they should add it.

Chairman Howard stated that he thinks the solution is, if there are things that inspectors are overlooking, they should make sure that the inspectors enforce the rules. It is not to create another barrier for applicants to add another six weeks to an approval process, to go back to a Village after already getting through a Village. He asked staff if wall plans are required at this time.

Ms. Escolar stated no, a wall plan is not required with a rezoning process, but it would be required with the next step, which is typically a preliminary site plan approval.

Commissioner Johnson stated that he agreed with what Commissioner Gaynor had said. Creating a stipulation where they have to put up wall plans is really great for big builders, but for a small builder, like himself, it is an added cost that really starts to push out local builders and only really attract some of the big builders in the Valley, which is not really what the Commission wants. They want to make sure they are having a good mix of both, in his opinion. Secondly, he stated that if there are these inspectors out there, he would encourage staff to start sending them to his site, because he has not encountered that ever. The inspectors that they have are very meticulous in what they inspect, and they require it to be verbatim, exactly what is on the site plan, to the point where it can be frustrating as a builder, but he also understands that it is their job. He agrees with Chairman Howard and what Commissioner Gaynor stated. This is not really something that is part of the process, and he does not think that it should be added to the process. If the applicant decides to offer this up, he is supportive of that on future cases. But, right now on this case the Village has signed off, the neighborhood has signed off, staff has signed off. There is zero opposition, and considering sending it back to the Village for wall plans does not seem fair to him.

**Vice-Chairwoman Mangum made a motion to approve Z-19-22-7, per the Laveen Village Planning Committee recommendation.**

**Commissioner Gaynor SECONDED.**

There being no further discussion, Chairman Howard called for a vote and the MOTION Passed 8-1 (Busching).

Stipulations:

1. The development shall be in general conformance to the site plan, ~~elevations~~, and open space exhibit date stamped March 17, 2022, AND ELEVATIONS DATE STAMPED JULY 116, 2022, as modified by the following stipulations and approved by the Planning and Development Department.
2. All garage doors shall have decorative embellishments such as window panels, added materials surrounding the door, and/or trellises, as approved by the Planning and Development Department.
3. The maximum building height shall be 30 feet, except units along the north and east sides of the site shall be limited to a maximum building height of 18 feet, as approved by the Planning and Development Department.
4. THE COMMON OPEN SPACE AREA SHALL PROVIDE A SHADED PLAYGROUND ELEMENT, AS APPROVED BY THE PLANNING AND DEVELOPMENT DEPARTMENT
5. THE DEVELOPER SHALL PROVIDE THE OPTION FOR EV-READY (WIRING FOR ELECTRIC VEHICLE CHARGING) GARAGES AND A MINIMUM OF 10 EV CHARGING STATIONS.
- 4.6. Required landscape setbacks shall be planted with minimum 50-percent 2-inch caliper and 50-percent 3-inch caliper large canopy drought-tolerant trees, 20 feet on center or in equivalent groupings, with 5-gallon shrubs per tree, as approved by the Planning and Development Department.
- 5.7. Sidewalks along 39th Avenue and Vineyard Road shall be detached with a minimum 5-foot-wide landscaped strip located between the sidewalk and back of curb and planted to the following standards, as approved by the Planning and Development Department:
  - a. Minimum 3-inch caliper, large canopy, single-trunk, shade trees placed to provide a minimum of 75% shade on adjacent sidewalks.
  - b. Drought tolerant shrubs and vegetative groundcovers with a maximum mature height of 24 inches to provide a minimum of 75% live coverage at maturity.
  - c. Where utility conflicts arise, the developer shall work with the Planning and Development on an alternative design solution consistent with a pedestrian environment.
- 6.8. The developer shall dedicate a minimum of 30-feet of right-of-way and construct the east side of 39th Avenue, as approved by the Planning and Development Department.

- 7.9. The developer shall dedicate a minimum of 30-feet of right-of-way and construct the north side of Vineyard Road, as approved by the Planning and Development Department.
8. The developer shall underground all electrical utilities within the public right-of-way that are impacted by or need to be relocated as part of the project. The developer shall coordinate with affected utility company for their review and permitting.
9. The developer shall underground and relocate any existing irrigation facilities outside of City right-of-way along 39th Avenue. The developer shall Contact SRP to identify existing land rights and establish appropriate process to relocate facility. Relocations that require additional dedications or land transfer require completion prior to obtaining plat and/or civil plan review approval.
10. THE DEVELOPER SHALL MAKE REASONABLE EFFORTS TO WORK WITH THE STREET TRANSPORTATION DEPARTMENT AND NEIGHBORS IN PROXIMITY TO THE SITE TO IDENTIFY IMPROVEMENTS, INCLUDING SPEED BUMPS, ROUNDABOUT, AND/OR SIMILAR IMPROVEMENTS, FOR MITIGATING VEHICLE SPEEDING ON VINEYARD ROAD AND 39TH AVENUE ADJACENT TO THE SITE AGREED UPON BY NEIGHBORS, THE STREET TRANSPORTATION DEPARTMENT AND DEVELOPER IN ACCORDANCE WITH THE CITY'S PROCEDURES FOR INSTALLING SUCH IMPROVEMENTS.
11. The developer shall construct all streets within and adjacent to the development with paving, curb, gutter, sidewalk, curb ramps, streetlights, median islands, landscaping and other incidentals, as per plans approved by the Planning and Development Department. All improvements shall comply with all ADA accessibility standards.
12. A minimum of 28 bicycle parking spaces shall be provided through Inverted U and/or artistic racks located near building entrances or amenity areas and installed per the requirements of Section 1307.H. of the Phoenix Zoning Ordinance, as approved by the Planning and Development Department. Artistic racks shall adhere to the City of Phoenix Preferred Designs in Appendix K of the Comprehensive Bicycle Master Plan.
13. If determined necessary by the Phoenix Archaeology Office, the applicant shall conduct Phase I data testing and submit an archaeological survey report of the development area for review and approval by the City Archaeologist prior to clearing and grubbing, landscape salvage, and/or grading approval.
14. If Phase I data testing is required, and if, upon review of the results from the Phase I data testing, the City Archaeologist, in consultation with a qualified archaeologist, determines such data recovery excavations are necessary, the applicant shall conduct Phase II archaeological data recovery excavations.

14. In the event archaeological materials are encountered during construction, the
17. developer shall immediately cease all ground-disturbing activities within a 33-foot radius of the discovery, notify the City Archaeologist, and allow time for the Archaeology Office to properly assess the materials.
  
15. Prior to preliminary site plan approval, the landowner shall execute a Proposition 207 waiver of claims form. The waiver shall be recorded with the Maricopa County Recorder's Office and delivered to the City to be included in the rezoning application file for record.

Jennifer Rouse

**MEMBERS EXCUSED**

Tonya Glass, Chair  
Elijah Flores  
Gary Flunoy  
Christopher Joseph  
Gizette Knight

**STAFF PRESENT**

Julianne Pierre

*The items for this meeting were heard in the following order: 1, 2, 3, 8, 9, 4, 5, 6, 7, 10.*

1. Call to order, introductions, and announcements by Chair.

**Vice Chair Linda Abegg** called the Laveen Village Planning Committee meeting to order at 6:30 p.m. with a quorum of seven members present (seven members required for a quorum).

2. Review and approval of the **June 13, 2022** meeting minutes.

*Committee member Jennifer Rouse arrived to the meeting during this item, bringing quorum to 8 members.*

**MOTION**

Committee member **Carlos Ortega** made a motion to approve the June 13, 2022 minutes. The motion was seconded by Committee member **Stephanie Hurd**.

**VOTE**

**8-0**, motion passed; Committee members Abegg, Barraza, Buggs, Hurd, Jensen, Ortega, Perrera, and Rouse in favor.

3. Public comments concerning items not on the agenda.

**Dan Penton** and **Phil Hertel** indicated that they had no comments and wanted to reserve their time for the public comment portion of other agenda items.

4. **PHO-3-22-Z-96-06-7:** Presentation, discussion, and possible recommendation regarding a request to modify stipulations of entitlement for the property located at the southwest corner of 59th Avenue and Southern Avenue. Request for review of conceptual elevations per stipulation number 2.

## **Laveen Village Planning Committee**

Minutes – July 11, 2022

Page 2 of 12

### **STAFF BACKGROUND PRESENTATION**

**Julianna Pierre** indicated that this item was heard by the Village Planning Committee (VPC) at last month's meeting and was continued to address concerns with the conceptual elevations. She provided information regarding the location of the site and surrounding zoning. She stated that the applicant is coming before the Committee for review of conceptual elevations per Stipulation No. 2. She displayed the proposed elevations for the residential and support buildings.

### **APPLICANT PRESENTATION**

**Alan Beaudoin**, applicant and representative with Norris Design, stated that at last month's meeting he presented elevations, but the VPC wanted to see more detailing with accent materials and colors. He displayed the revised elevations and stated that since the last meeting he had discussions with Committee members and made adjustments as recommended.

### **QUESTIONS FROM COMMITTEE**

**Vice Chair Linda Abegg** stated that through discussions with the applicant they decided to modify Stipulation No. 2 to general conformance to the revised elevations with specific regard to the following elements:

- The roof material at the covered entries will be standing seam metal.
- The elevations will utilize a minimum of 3 different siding materials, generally as shown above.
- The units will utilize farmhouse style gooseneck lamps at the entries.
- Eaves will extend 18 inches off of primary facades.
- The individual unit types will be located on the site plan per the provided key plans.
- Black window frames should be used for white colored elevations that face a street.

**Alan Beaudoin** indicated that the vinyl for the windows may not come in black, but instead a dark brown. **Vice Chair Linda Abegg** stated that the vinyl should be a darker color, either black or dark brown.

### **PUBLIC COMMENTS**

**Dan Penton** requested that the updated elevations be forwarded to the Laveen Citizens for Responsible Development (LCRD). He added that the modified elevations are better without pastel colors, and he appreciated the improvements in aesthetics, specifically noting the 18-inch overhangs. He asked if the units would incorporate 22-foot driveways. **Alan Beaudoin** stated that 22-foot driveway have been incorporated into the most recent site plan.

**Phil Hertel** appreciated the inclusion of the LCRD comments.

### **MOTION**

**Committee member Stephanie Hurd** made a motion to approve PHO-3-22-Z-96-06-7 with the following modifications to Stipulation No. 2:

## **Laveen Village Planning Committee**

Minutes – July 11, 2022

Page 3 of 12

- The roof material at the covered entries will be standing seam metal.
- The elevations will utilize a minimum of 3 different siding materials, generally as shown above.
- The units will utilize farmhouse style gooseneck lamps at the entries.
- Eaves will extend 18 inches off of primary facades.
- The individual unit types will be located on the site plan per the provided key plans.
- Black window frames should be used for white colored elevations that face a street.

The motion was seconded by **Committee member Jennifer Rouse**.

### **VOTE**

**8-0**, motion passed; Committee members Abegg, Barraza, Buggs, Hurd, Jensen, Ortega, Perrera, and Rouse in favor.

5. **Z-19-22-7:** Presentation, discussion, and possible recommendation regarding a request to rezone 11.08 acres located at the northeast corner of 39th Avenue and Vineyard Road from R1-8 (Single-Family Residence District) to R-2 (Multifamily Residence District) to allow multifamily residential.

### **STAFF PRESENTATION**

**Julianna Pierre** indicated that this item was heard by the VPC at last month's meeting and now they are returning for recommendation. She provided information regarding the location of the site, surrounding zoning, and general plan designation. She briefly discussed the proposal by reviewing the site plan and elevations. She discussed that community concerns were expressed at last month's meeting regarding traffic and speeding. She also reviewed the staff findings, recommendation, and stipulations.

### **APPLICANT PRESENTATION**

**Michael Maerowitz**, representative with Gammage & Burnham, provided information regarding the location of the site, surrounding zoning, and general plan land use designation. He stated that the proposal is to rezone the site from R1-8 to R-2 to allow a multifamily community. He added that the development is proposed to have 110 units of one- and two-story buildings, with height limitations adjacent to existing residential. He added that he met with the Chair and Vice Chair to discuss the design of the property and based on comments from the last VPC meeting, additional architectural detailing was added for perimeter lots. He stated that the elevations were modified, and the general conformance stipulation should be modified to include the elevations date stamped July 11, 2022. He added that the traffic and speeding was discussed with the Street Transportation Department and the developer is willing to add a stipulation to aid in mitigation.

### **QUESTIONS FROM COMMITTEE**

**Committee member Stephanie Hurd** appreciated the applicant initiating the process to set up street improvements to mitigate speeding. She was also pleased with the palm trees near the pool and throughout the development. **Committee member**

## **Laveen Village Planning Committee**

Minutes – July 11, 2022

Page 4 of 12

**Carlos Ortega** appreciated the additional stipulation to work with the Street Transportation Department regarding speeding mitigation.

**Committee member Rebecca Perrera** appreciated the diversity and variety in the elevations' designs. She asked if there would be a playground in any of the open space areas. **Michael Maerowitz** stated that the open space areas did not have a playground, but would have lawn games, such as cornhole and bocce ball. He stated that the developer is not opposed to a playground, but wanted the open space to be more park-like. **Committee member Rebecca Perrera** stated that if families live in the development, a playground would probably be appreciated. **Committee member Carlos Ortega** asked if play equipment could be incorporated on the east side of the central open space. **Michael Maerowitz** stated that play equipment could be added just east of the fitness center.

**Vice Chair Linda Abegg** asked about the possibility of EV charging capabilities. **Committee member Carlos Ortega** asked if the private garages could be wired as well. **Michael Maerowitz** stated that the developer would provide charging stations and that a portion of the garage spaces could be wired.

### **PUBLIC COMMENTS**

**Dan Penton** stated that the developer could provide a tot lot instead of a full playground. He also discussed traffic and noted that the Homeowners Association may have to be involved in the process to add speed mitigation elements adjacent to the site.

**Phil Hertel** expressed concern with the proposed density. He stated there is adjacent R-2 (Multifamily Residence District) zoning, but it was built with single-family residences, which should be taken into account. He expressed concerns with traffic, specifically noting that the north of the site, 39th Avenue will not be improved. He added that the intersection at 39th Avenue and Southern Avenue is the deadliest intersection in Laveen, and the proposed development is not doing anything to assist with traffic issues.

**Margaret Shalley** stated that she was in support of having a tot lot or playground with a shade covering.

### **APPLICANT RESPONSE**

**Michael Maerowitz** stated that the density is technically higher, but the number of total bedrooms is similar to that of 60 single-family residential homes. He stated that the density is also necessary for the site to be economically feasible with quality materials and amenities. He added that a single-family home with three to four bedrooms would generate more traffic than a single bedroom unit. He stated that a traffic study was prepared showing that peak traffic numbers would be 52 in the morning and 62 in the afternoon, only having a 1% increase to arterial streets. He added that the developer has been working with the Street Transportation Department to work on traffic mitigation.

### **COMMITTEE DISCUSSION**

**Committee member Stephanie Hurd** stated that the open space provided is great, but a playground should be left up to the developer. She stated that while kids may use it during the day, teens will hang out there at night. She added that it would be nice for additional palm trees to be included near the pool area. **Committee member Rebecca Perrera** noted that palm trees take a lot of maintenance and water. Committee members agreed that a motion should be made without a request for additional palm trees.

### **MOTION**

**Committee member Rebecca Perrera** made a motion to approve Z-19-22-7 with a modification to Stipulation No. 1, regarding general conformance, to include the elevations date stamped July 11, 2022, and the following additional stipulations:

- The developer shall make reasonable efforts to work with the Street Transportation Department and neighbors in proximity to the site to identify improvements, including speed bumps, roundabout, and/or similar improvements, for mitigating vehicle speeding on Vineyard Road and 39th Avenue adjacent to the site agreed upon by neighbors, the Street Transportation Department and developer in accordance with the City's procedures for installing such improvements.
- The common open space area shall provide a shaded playground element, as approved by the Planning and Development Department.
- The developer shall provide the option for EV-ready (wiring for electric vehicle charging) garages and a minimum of 10 EV charging stations.

The motion was seconded by **Committee member Francisco Barraza**.

### **VOTE**

**8-0**, motion passed; Committee members Abegg, Barraza, Buggs, Hurd, Jensen, Ortega, Perrera, and Rouse in favor.

6. **Z-22-22-8 (Companion Case Z-SP-3-22-8): Presentation, discussion, and possible recommendation regarding a request to rezone 4.90 acres located approximately 220 feet north of the northeast corner of 59th Avenue and Elliot Road **from C-1 (Neighborhood Commercial) to C-2 (Intermediate Commercial)** to allow commercial uses.**

*Item No. 6, Z-22-22-8, and No. 7, Z-SP-3-22-8, were heard concurrently.*

### **STAFF PRESENTATION**

**Julianne Pierre** provided information regarding the request, location, and surrounding zoning for Rezoning Case No. Z-22-22-8 and Special Permit Case No. Z-SP-3-22-8. She stated that the Special Permit would allow a self-service storage facility comprised of three buildings, and the remainder of the site still subject to Z-22-22-8 would be or future commercial uses. She stated that the site would have enhanced landscaping and the self-service storage facility's roll-up doors would be oriented away from

## **Laveen Village Planning Committee**

Minutes – July 11, 2022

Page 6 of 12

residences. She reviewed the community input, staff findings, recommendation, and stipulations for both cases.

### **APPLICANT PRESENTATION**

**Adam Baugh**, representative with Withey Morris, PLC, discussed the location, general plan designation, and history of the site for both Z-22-22-8 and Z-SP-3-22-8. He discussed the site layout, noting that the southwest corner of the site will be retained as a future retail parcel. He reviewed the conceptual elevations and project highlights and benefits. He stated that the self-service storage use is an ideal buffer for adjacent residential because it is a low-intensity commercial use. He added that, per discussion with the Committee, the developer was open to adding a stipulation requiring a Planning Hearing Officer hearing for the future commercial portion and a modification to the shading requirement for the 5-foot-wide detached sidewalk along 59th Avenue.

### **QUESTIONS FROM COMMITTEE**

**Committee member JoAnne Jensen** asked for clarification about community correspondence. **Vice Chair Linda Abegg** stated that the applicant does community outreach, but staff will typically note that there has been no community correspondence if no emails have been received.

**Committee member Linda Abegg** asked about increasing shade to 75%. **Adam Baugh** explained that there are space constraints, and it would not be possible to add a second row of trees to provide 75% shade. He stated that they will meet the Ordinance requirement of 50% shading.

### **PUBLIC COMMENT**

**Dan Penton** appreciated that the elevations were discussed with the LCRD and community input was taken into account. He expressed concerns with the orientation of the primary building considering residential is proposed directly adjacent to the self-service storage facility. He recommended that front of the primary building face south and incorporate four-sided architecture. He also expressed concern regarding the ratio of storage and residential in the Village. He added the commercial that is approved should be revenue generating and usable.

### **APPLICANT RESPONSE**

**Adam Baugh** clarified that the building is oriented as proposed because there will be a right in-right out entry to the site. He added that a corner of the site is set aside for future commercial and there is zoning across 59th Avenue or future commercial.

### **MOTION**

**Committee member Carlos Ortega** made a motion to approve Z-22-22-8 with the modification of Stipulation No. 4, regarding review and comment, to instead require a PHO and modification of Stipulation No. 11.a to include language for 50% shading of the detached sidewalk. The motion was seconded by **Committee member Francisco Barraza**.

## Laveen Village Planning Committee

Minutes – July 11, 2022

Page 7 of 12

### **VOTE**

**8-0**, motion passed; Committee members Abegg, Barraza, Buggs, Hurd, Jensen, Ortega, Perrera, and Rouse in favor.

7. **Z-SP-3-22-8 (Companion Case Z-22-22-8): Presentation, discussion, and possible recommendation regarding a request to rezone 3.60 acres located approximately 420 feet north of the northeast corner of 59th Avenue and Elliot Road **from C-1 (Pending C-2) (Neighborhood Commercial, Pending Intermediate Commercial) to C-2 SP (Intermediate Commercial, Special Permit)** to allow a self-service storage warehouse and underlying commercial uses.**

*Item No. 6, Z-22-22-8, and No. 7, Z-SP-3-22-8, were heard concurrently.*

### **MOTION**

**Committee member Carlos Ortega** made a motion to approve Z-SP-3-22-8 with the modification of Stipulation No. 9.a to include language for 50% shading of the detached sidewalk. The motion was seconded by **Vice Chair Linda Abegg**.

### **VOTE**

**8-0**, motion passed; Committee members Abegg, Barraza, Buggs, Hurd, Jensen, Ortega, Perrera, and Rouse in favor.

8. **GPA-LV-1-22-8 (Companion Case Z-25-22-8): Presentation, discussion, and possible recommendation on a request to amend the General Plan Land Use Map Designation on approximately 4.99 acres located at the southwest corner of 43rd Avenue and Baseline Road **from Residential 2 to 3.5 dwelling units per acre to Commercial** to allow commercial development.**

*Item No. 8, GPA-LV-1-22-8, and No. 9, Z-25-22-8, were heard concurrently.*

### **STAFF PRESENTATION**

**Julianne Pierre** stated that this item was heard by the Committee last month for information only. She provided information regarding the request, location, and surrounding zoning for General Plan Amendment, GPA-LV-1-22-8, and Rezoning Case No. Z-25-22-8. She stated that the PUD request and associated General Plan Amendment would permit a veterinary hospital and other commercial uses. She discussed the proposal of a veterinary hospital and clinic on the south side of the site and the north side of the site is proposed for future commercial uses. She discussed the prohibited uses, development standards, and design of the proposal. She stated that there was community input about traffic issues caused by the adjacent school. She reviewed the staff findings, recommendation, and stipulations for Z-25-22-8 and noted that the associated General Plan Amendment did not have any stipulations.

### **APPLICANT PRESENTATION**

**Adam Baugh**, representative with Withey Morris, PLC, provided an overview of the site and the proposal. He stated that the use developing on the southern portion of the

## Laveen Village Planning Committee

Minutes – July 11, 2022

Page 8 of 12

site will be the Laveen Veterinary Center and that the northern portion of the site will be for future commercial uses. He stated that since last month, the developer had talked with the Community and Economic Development Department to determine the demographics in the area and what types of commercial uses would be best for the north side of the site. He emphasized that the intent of the PUD is to develop an asset for the community.

### **PUBLIC COMMENTS**

**Dan Penton** stated that he was in favor of the proposal, but requested that the north side of the parcel be dustproofed until uses were ready to be built.

### **MOTION**

**Committee member JoAnne Jensen** made a motion to approve GPA-LV-1-22-8. The motion was seconded by **Committee member Jennifer Rouse**.

### **VOTE**

**8-0**, motion passed; Committee members Abegg, Barraza, Buggs, Hurd, Jensen, Ortega, Perrera, and Rouse in favor.

9. **Z-25-22-8 (Companion Case GPA-LV-1-22-8): Presentation, discussion, and possible recommendation regarding a request to rezone 4.99 acres located at the southwest corner of 43rd Avenue and Baseline Road from S-1 (Ranch or Farm Residence) to PUD (Planned Unit Development) for the Laveen Veterinary Hospital & Clinic PUD to allow a veterinary hospital and commercial uses.**

*Item No. 8, GPA-LV-1-22-8, and No. 9, Z-25-22-8, were heard concurrently.*

### **MOTION**

**Committee member JoAnne Jensen** made a motion to approve Z-25-22-8. The motion was seconded by **Committee member Jennifer Rouse**.

### **VOTE**

**8-0**, motion passed; Committee members Abegg, Barraza, Buggs, Hurd, Jensen, Ortega, Perrera, and Rouse in favor.

10. **Z-45-22-8: Presentation, discussion, and possible recommendation regarding a request to rezone 41.60 acres located at the southeast corner of 59th Avenue and Dobbins Road from S-1 (Approved C-2 HGT/WVR PCD) (Ranch or Farm Residence, Approved Intermediate Commercial, Height Waiver, Planned Community District) to C-2 HGT/WVR DNS/WVR (Intermediate Commercial, Height Waiver, Density Waiver) to allow mixed-use development.**

### **STAFF PRESENTATION**

**Julianna Pierre** provided information regarding the request, location of the site, adjacent zoning and uses, and general plan designation. She reviewed the proposal which consists of Lot 1, the commercial town center and retail plaza; Lot 2, the two-

## **Laveen Village Planning Committee**

Minutes – July 11, 2022

Page 9 of 12

and three-story multifamily apartments; and Lot 3, the one-story multifamily development with courtyard clusters. She reviewed the conceptual site plan and elevations. She discussed the community input, staff findings, recommendation, and stipulations.

### **APPLICANT PRESENTATION**

**Ben Tate**, representative with Withey Morris, PLC, provided information regarding the site location, general plan designation, and adjacent zoning. He discussed the site history and noted that the defunct Laveen Town Center Planned Community District (PCD) is no longer supported. He added that the applicant is requesting to zone out of the PCD due to the stipulations requiring master planning, which are difficult to satisfy for one parcel. He added that the density and height for the new proposal matches that of the PCD and the proposal is an adaptation of what was proposed in 2004. He reviewed the proposal, specifically describing the key information for Lots 1, 2, and 3. He displayed the conceptual site plan, elevations, various renderings, and color options.

### **QUESTIONS FROM COMMITTEE**

**Committee member Carlos Ortega** expressed concern with the lack of commercial. He recommended that the entire frontage of 59th Avenue be commercial uses. He added that the applicant had modified their original plan, but the retail space of Lot 1 was not increased, only the parking area. He added that the commercial will not be accessible to other Laveen residents and will only function as an amenity for those who live in Lots 2 and 3. He also expressed concern with the lack of open space in the residential lots. **Committee member Rebecca Perrera** added that there is a need for more commercial and what is proposed will not be accessible to other residents within the Laveen Village.

**Committee member Stephanie Hurd** stated that the proposal looks great, but needs additional commercial space. She stated that commercial zoning in the Village is always used for multifamily development or a self-service storage facility and there is a need for more usable commercial. She stated that the Committee should continue to item to allow the applicant more time to modify the proposal to Laveen's advantage.

**Committee member Jennifer Rouse** stated that she was disappointed with the proposal and there should be additional commercial integrated into the development.

**Committee member Carlos Ortega** stated that the three residential buildings in Lot 2 along Dobbins Road should be commercial. He reiterated that the residential lots need more open space and Laveen wants more open space that is required by the Ordinance. He recommended that the applicant continue to work with the Committee and community to modify the proposal.

**Vice Chair Linda Abegg** stated that the 40 acres to the south is intended to be a public park with 20 acres leased to the school district for a school. She stated that the applicant should work with the City regarding the park space because there is a need for additional open space considering the number of units proposed. **Committee**

## Laveen Village Planning Committee

Minutes – July 11, 2022

Page 10 of 12

**member Rebecca Perrera** also expressed concerns with the lack of open space incorporated into the proposal.

**Committee member JoAnne Jensen** stated that she understood it would take more people than proposed in the development to support additional commercial. She recommended that the development provide additional spaces that could be converted into retail in the future. **Committee member Stephanie Hurd** stated that most commercial in the Village has become multifamily, but commercial users do want to return to Laveen. **Ben Tate** stated that the proposed amount of commercial is what can be supported in the future.

### **PUBLIC COMMENTS**

**Dan Penton** stated that the proposal shows a lack of vision and unwillingness to listen to the Committee and community. He also expressed concern with the neighborhood meeting. He added that he held a poll on Facebook where 98% of respondents indicated they wanted more commercial and open space to be included in the development. He added the developer increased the town square, but did not increase the retail space, but only the parking area. He recommended that the developer keep the number of units the same, but increase the proposed height to allow for more open space and commercial. He expressed concerns that the commercial uses will only function as an amenity for Lots 2 and 3. He recommended that the applicant ask for a continuance to receive additional input from the community and modify the proposal.

**Justin Ferrandi** stated that commercial development needs to be supported by rooftops. He stated that the Committee should allow additional rooftops to be built and commercial development will follow.

### **APPLICANT RESPONSE**

**Ben Tate** stated that Lot 1 will have indoor and outdoor leasable area for retail. He added that the developer may be able to add additional commercial, but it has to be sustainable for the market. He stated that the number of residents living on site will not be enough to service the proposed commercial, and the intent is for the commercial area to be used by residents on and off site. He added that additional commercial may remain unleased, detracting from the mixed-use environment.

### **COMMITTEE DISCUSSION**

**Vice Chair Linda Abegg** stated that there had been discussions with the applicant and the town square portion of the development would have to be built before the second phase of residential is built.

**Committee member Stephanie Hurd** stated that the Committee should consider a continuance to give the applicant time to modify the proposal to incorporate more commercial. She said the commercial users, such as Target, were considering coming to the Village when there was primarily one acre lots.

## Laveen Village Planning Committee

Minutes – July 11, 2022

Page 11 of 12

**Committee member Carlos Ortega** stated that a continuance should be considered because the Committee wants to see something different and there needs to be more community input. **Committee member Rebecca Perrera** stated that the Committee should consider a continuance over a vote.

### **MOTION**

**Committee member Carlos Ortega** made a motion to continue Z-45-22-8 to the August 8th VPC meeting to give the applicant time to consider modifications to the proposal that incorporate more commercial and open space. The motion was seconded by **Committee member Jennifer Rouse**.

### **VOTE**

**8-0**, motion passed; Committee members Abegg, Barraza, Buggs, Hurd, Jensen, Ortega, Perrera, and Rouse in favor.

#### 11. Staff update on cases recently reviewed by the Committee.

**Julianna Pierre** provided the following updates:

- PHO-2-22-Z-39-12-7: (Approximately 660 feet north of the northeast corner of 51st Avenue and Baseline Road). Request to delete stipulation number 3, regarding a 50-foot landscape setback along 51st Avenue and Baseline Road, and stipulation number 4, regarding a multi-use trail along 51st Avenue and Baseline Road. The Planning Hearing Officer took the case out from under advisement on June 23, 2022, and recommended approval with additional stipulations. She added that the additional stipulations were regarding general conformance to a landscape plan, to address requirements for archaeological survey and testing, and regarding submittal of a Proposition 207 Waiver of Claims form prior to preliminary site plan approval.
- Dobbins Industrial Tech Park: **Julianna Pierre** stated that she is still in contact with Planning and Development management, City Council, and CED to provide an update presentation to the VPC. She indicated that she had not received a response, but hoped the update would be provided at the August VPC meeting. **Vice Chair Linda Abegg** stated that she has also requested management to attend the meeting multiple times to discuss Dobbins Industrial Tech Park. She discussed how the PUD was approved with the intent to have no distribution uses. She also discussed the informal interpretation that allowed a loophole for candy items to be packaged and distributed. However, this was not considered to be distribution because the site would allow people to come in and buy the candy. She stated that a portion of the proposal is currently in development review, but there are still issues with the number of dock doors.

## Laveen Village Planning Committee

Minutes – July 11, 2022

Page 12 of 12

- Laveen Spectrum: A portion of the Laveen Spectrum PUD went through the preliminary site plan approval process. The elevations and site plan are similar to what was proposed during the preapplication process, but there was a slight difference in the number of units.

12. Committee member announcements, requests for information, follow up, or future agenda items.

**Vice Chair Linda Abegg** stated that if other members of the Committee wanted to be involved in meetings with developers to let staff know, so they can pass along contact information.

**Committee member Carlos Ortega** requested that the Committee be provided information about how to generate commercial investment from additional rooftops. **Committee member Stephanie Hurd** discussed the retail analysis that was initiated by the Mayor and City Council. **Vice Chair Linda Abegg** and **Committee member JoAnne Jensen** asked for contact information for Planning and Development Department staff, Community and Economic Development Department staff, and Council District 7 and 8 offices.

**Committee member Jennifer Rouse** discussed the Talk About STEAM event occurring on July 16th. She added that it will be open to the public with food trucks and projects that are STEAM based. She also discussed the town hall hosted by Councilwoman Ansari. She also discussed the Phoenix Neighborhood Patrol training. **Committee member Stephanie Hurd** asked if District 7 and District 8 were both involved in the town hall. **Committee member Jennifer Rouse** stated that she was not aware of District 8 being involved. She stated that Councilwoman Ansari has been working with the community regarding issues in the Village.

**Committee member Francisco Barraza** asked when VPC meetings will return to in person. **Julianna Pierre** explained that as of right now, VPC meetings will still be virtual, but if that does change, she will let the Committee know.

13. Adjournment.

**Vice Chair Linda Abegg** made a motion to adjourn the meeting. The motion was seconded by **Committee member Carlos Ortega**.

The meeting was adjourned at 10:45 p.m.
