Re: Stipulation Modification Request for Z-146-06-8

Dear Planning Hearing Officer:

On behalf of Alliance Residential we are pleased to submit this request for Planning Hearing Officer (“PHO”) approval of proposed modifications of the stipulations of approval associated with Case Z-146-06-8, approved by the City Council on March 7, 2007.

The 2007 approval of C-2/HR was for a proposed high-rise residential and hotel complex with two (2) towers up to 250 feet in height (23 stories), including 390 dwelling units and 260 hotel rooms with restaurant and bar uses. To address the impacts that the significant size of this complex would impose on the surrounding community (focused on existing single-family homes to the north within the historic Garfield neighborhood), a number of specific design solutions were included in the plan, and subsequently codified in the approval. The key one being a requirement to include townhomes along the northern edge of the project to provide a buffer for the tower elements.

While the 2007 project was a grand vision, it reflected the time in which it was proposed. As evidenced by the project not being constructed, this vision does not reflect today’s market realities. Since there has been a number of new hotels constructed in Downtown combined with changes in leisure and business travel due to the COVID pandemic and resulting use of electronic

Planning Hearing Officer
June 2, 2022
Page 2

meetings, this is no longer a location for a hotel use. Without the hotel, the concept of a mixed-use development where residents would have access and proximity to hotel amenities (such as restaurant and bar on site) does not work and a high-rise tower does not make market sense at this time.

Today, the site is a great location for a residential development of a more neighborhood scale. The Broadstone Van Buren is a “podium” design, with the internalized parking garage underneath residential units and hidden by ground floor residential units and/or leasing and amenity spaces. This design does result in a more uniform building mass, but lowers total height from 250 feet down to 70 feet. It also lowers density to 336 units and eliminates the intensive hotel use from the site. Other improvements to the design include removal of driveway access to Polk Street (keeping traffic out of the neighborhood) and the ability to utilize ground floor units that engage the street with direct access and patios, acting as a transition to the neighborhood beyond.

As shown in the attached site plan and conceptual elevations, the reimaged project is of a more neighborhood scale, similar to other recent development in the area along Washington, Jefferson and Van Buren Streets.

In order to facilitate this new design and construction type, specific conditions of the approval must be modified, with each discussed in detail below.

Stipulation Review

*1. That the development shall be in general conformance with the site plan and elevations date stamped ~~October 26, 2006~~ **JUNE 6, 2022**, as approved or modified by the Development Services Department, with the following specific provisions, all as approved by the Development Services Department.*

- *That all pedestrian routes shall have appropriate lighting and shading created either by landscaping and exterior building design.*
- *That the roof top pool and jacuzzi area, **IF PROVIDED**, shall be provided with a minimum of four ramadas and landscaping to shade 25% of the deck.*
- ~~*That the townhomes on the west and north part of the site shall be limited to 56' in height.*~~
- ***THAT THE GROUND FLOOR UNITS ALONG POLK STREET PROVIDE PATIOS AND DIRECT ACCESS TO THE STREET FOR RESIDENT USE.***

REQUEST: These changes will update the plans to reflect the contemporary design that transitions from a 250 foot tall dual tower design to a seven (7) story podium design. With this reduction in height, the transition from the neighborhood to the project is best provided by a focus on the “20/20” area, the first 20 feet of height and the 20 feet around the sidewalk. This pedestrian focused design will encourage eyes on the street, as well as a more neighborly feel as residents will be more likely to interact with neighbors as they utilize Polk. The proposed modifications to

Planning Hearing Officer
June 2, 2022
Page 3

this stipulation will allow for an update to the site plan and elevations to reflect the current design and project, while allowing (but not requiring) a roof top pool and allows for a design change from a “townhouse” to a “flat” style units along the north part of the site. With the change in design to lower overall project height, there is no longer a need for transitional townhome style units, nor is there a way to provide such units with the podium plan. Furthermore, the removal of the Polk Street driveway will eliminate traffic from Polk and support a more pedestrian environment on this neighborhood street, a major shift in the site plan that will benefit the neighborhood.

3. That the architecture of the ~~townhome~~ buildings fronting on Polk Street shall provide design features and architectural embellishments consistent with the character of the neighborhood, as approved by the Development Services Department.

REQUEST: Remove the reference to townhome as the units are “flats” and are not of a townhome design, as discussed above.

~~6. That the applicant shall provide exterior planters with appropriate watering systems on at least 50 percent of the balconies facing the streets, on the first eight floors, as approved by the Development Services Department.~~

REQUEST: With the revised design and changes in construction type, as well as reduction in overall building height, it is both impractical as well as unnecessary to provide “hanging gardens” on the building façade. On façade planters are notorious for leaking, causing damage to the structure, including interior to the units. As noted above, the design of the building will focus on providing a quality pedestrian experience along Polk and Van Buren; by removing on-building vegetation requirements the design team can focus on providing a quality streetscape to better benefit the neighborhood with shade, street trees and a walkable perimeter.

~~8. That a plaza shall be provided at grade level at a location along Van Buren Street adjacent to the façade. The plaza shall have a minimum size of 1000 square feet, with one side at least 20 feet in length, as approved by the Development Services Department. The following amenities shall be provided within the street level plaza:~~

- ~~• decorative paving~~*
- ~~• 50% afternoon shade stationary seating to include a minimum of five benches and other planter or low wall ledge seating as deemed appropriate~~*
- ~~• trash receptacles as appropriate~~*
- ~~• artistic elements which can be incorporated into the design and furnishings of the plaza~~*

8. THAT THE PROJECT SHALL INCLUDE ENHANCED PEDESTRIAN FEATURES, AS APPROVED BY THE PLANNING AND DEVELOPMENT DEPARTMENT. REQUIRES A MINIMUM OF:

Planning Hearing Officer
June 2, 2022
Page 4

- **DECORATIVE PAVING OF ALL ON SITE PEDESTRIAN PATHS**
- **FIVE (5) SEATING NODES**
- **SHADE TRELLIS AND/OR TREES TO PROVIDE 100% SHADING OF SEATING NODES**
- **SEATING NODES TO INCLUDE (I) SEATING FOR TWO (2), (II) LIGHTING, AND (III) A UNIQUE ART ELEMENT OR FEATURE**
- **SEATING NODES TO BE ADJACENT AND/OR ACCESSIBLE FROM PUBLIC RIGHT-OF-WAY**

REQUEST: Because this development will no longer be as imposing along Van Buren as the original concept and is of a more uniform and lower massing/height, the requirement to provide a Van Buren specific “plaza” is no longer appropriate. This development will be of a more standard scale with other development and no longer includes a semi-public element by removing the hotel. Rather than a single space requirement for gathering, which makes sense with a hotel, the updated proposal will move the pedestrian elements contemplated by this stipulation to at least five (5) parts of the overall site, allowing for both residents and pedestrians to enjoy a comfortable and unique outdoor seating area for resting, talking, or checking their phones. We believe this approach will offer more value to the community while ensuring design flexibility.

Summary. This is a request to approve several minor changes to the 2007 rezoning stipulations to reflect the modern concept for this site. The new plan is an improvement to the neighborhood both in its reduction of height, as well as its improved traffic circulation. Furthermore, activation of this site, with its visibility to Verde Park, will support the larger neighborhood by removing a vacant site, putting “eyes on the park” as well as along abutting streets and will support transit use and commercial uses along the Van Buren corridor.

We look forward to discussing this request at our hearing. In the interim, if you need any additional information, please advise.

Respectfully submitted,

Snell & Wilmer

Dear Applicant:

RE: Z-146-06-8 Approximately 200 feet west of the northwest corner of Van Buren and 11th Streets

Please be advised that the Phoenix City Council, in accordance with the provisions of Section 506.B.4 of the Zoning Ordinance, as amended, has on March 7, 2007, concurred with the recommendation of the Planning Commission and has ratified application Z-146-06-8 to C-2 HR on approximately 4.3 acres, subject to the following stipulations:

STIPULATIONS

1. That the development shall be in general conformance with the site plan and elevations date stamped October 26, 2006, as approved or modified by the Development Services Department, with the following specific provisions, all as approved by the Development Services Department.
 - That all pedestrian routes shall have appropriate lighting and shading created either by landscaping and exterior building design.
 - That the roof top pool and jacuzzi area shall be provided with a minimum of four ramadas and landscaping to shade 25% of the deck.
 - That the townhomes on the west and north part of the site shall be limited to 56' in height
- TC 2. That the architectural treatment of all buildings in this development shall utilize a consistent, architectural theme, and harmonious building materials and exterior colors, as approved by the Development Services Department.
3. That the architecture of the townhome buildings fronting on Polk Street shall provide design features and architectural embellishments consistent with the character of the neighborhood, as approved by the Development Services Department.

- TC 4. That building materials shall not exceed a reflectivity rating greater than 20 percent, as approved by the Development Services Department.
- TC 5. That a minimum of 75% of the sidewalk along the Polk Street and Van Buren Street frontages shall be shaded by a combination of awnings, arcades and trees (measured at maturity). Shading shall be positioned to shade the sidewalk from April 15th through September 30th, as approved by the Development Services Department.
6. That the applicant shall provide exterior planters with appropriate watering systems on at least 50 percent of the balconies facing the streets, on the first eight floors, as approved by the Development Services Department.
- TC 7. That the applicant shall construct a 6-foot high masonry wall along the east, and where provided on the west side of the site. The wall shall be decorative wherever visible both on site and off site, as approved by Development Services Department.
8. That a plaza shall be provided at grade level at a location along Van Buren Street adjacent to the facade. The plaza shall have a minimum size of 1000 square feet, with one side at least 20 feet in length, as approved by the Development Services Department. The following amenities shall be provided within the street level plaza:
- decorative paving
 - 50% afternoon shade stationary seating to include a minimum of five benches and other planter or low wall ledge seating as deemed appropriate
 - trash receptacles as appropriate
 - artistic elements which can be incorporated into the design and furnishings of the plaza
9. That the developer shall construct all streets within and adjacent to the development with paving, curb, gutter, sidewalk, curb ramps, streetlights, landscaping, and other incidentals as per plans approved by the City. All improvements shall comply with all ADA accessibility standards.
10. That the property owner shall record documents that disclose the existence and operational characteristics of Sky Harbor International Airport to future owners or tenants of the property. The form and content of such documents shall be according to the templates and instructions provided, which have been reviewed and approved by the City Attorney.

Development and use of the site is subject to compliance with all applicable codes and ordinances.

Sincerely,

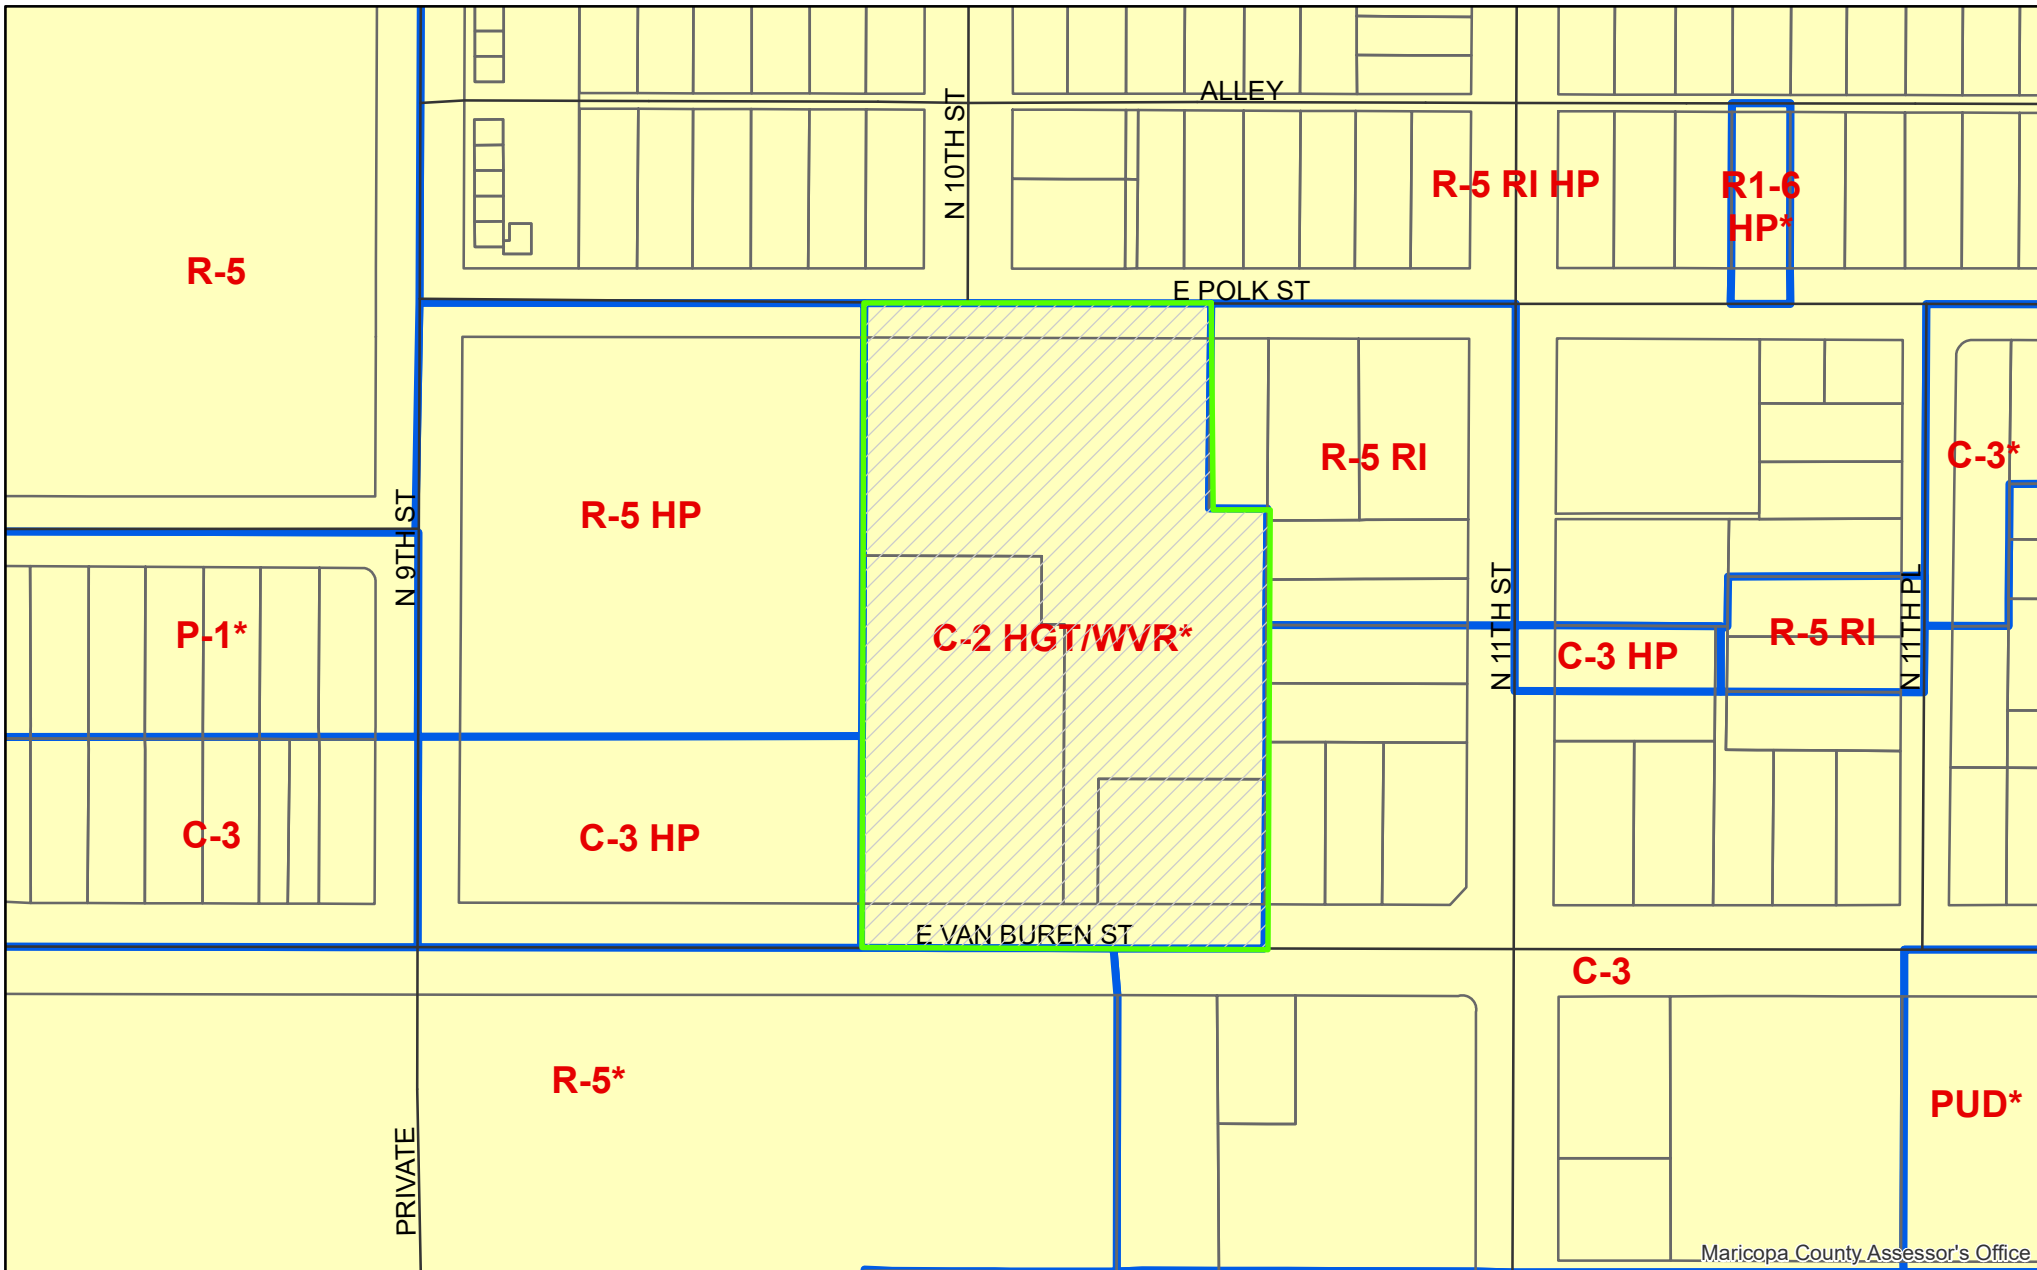

Carol Johnson, AICP
Principal Planner

ACTIONS:

Planning Commission Recommendation: It is recommended the request be approved on consent with modified and deleted stipulations:

Village Planning Committee (VPC) Recommendation:

Central City 1/8/2007: Approved, subject to stipulations. 13-1-0 vote.

Staff Recommendation: Approval with stipulations

Stipulations

1. That the development shall be in general conformance with the site plan and elevations date stamped October 26, 2006, as approved or modified by the Development Services Department, with the following specific provisions, all as approved by the Development Services Department.
 - That all pedestrian routes shall have appropriate lighting and shading created either by landscaping and exterior building design,
 - That the roof top pool and jacuzzi area shall be provided with a minimum of four ramadas and landscaping to shade 25% of the deck.
 - That the townhomes on the west and north part of the site shall be limited to 56' in height
2. That the architectural treatment of all buildings in this development shall utilize a consistent architectural theme, and harmonious building materials and exterior colors, as approved by the Development Services Department.
3. That the architecture of the TOWNHOME buildings FRONTING ON POLK STREET shall provide design features and architectural embellishments consistent with the character of the neighborhood, AS APPROVED BY THE DEVELOPMENT SERVICES DEPARTMENT.

4. That building materials shall not exceed a reflectivity rating greater than 20 percent, as approved by the Development Services Department.
5. That a minimum of ~~75%~~ 50% of the SIDEWALK ALONG THE POLK STREET AND VAN BUREN STREET FRONTAGES ~~length of the building along all street frontage shall be shaded BY A COMBINATION OF with methods such as awnings, and arcades~~ AND TREES (MEASURED AT MATURITY). ~~The remaining sidewalk shall be shaded with structures or other methods including landscaping.~~ Shading shall be positioned to shade the sidewalk from April 15th through September 30th, AS APPROVED BY THE DEVELOPMENT SERVICES DEPARTMENT.
6. That the applicant shall provide exterior planters with appropriate watering systems on at least 50 percent of the balconies facing the streets, on the first eight floors, as approved by the Development Services Department.
7. That the applicant shall construct a 6-foot high masonry wall along the east, and where provided on the west side of the site. The wall shall be decorative wherever visible both on site and off site, as approved by Development Services Department.
8. That a plaza shall be provided at grade level at a location along Van Buren Street adjacent to the facade. The plaza shall have a minimum size of 1000 square feet, with one side at least 20 feet in length, as approved by the Development Services Department. The following amenities shall be provided within the street level plaza:
 - decorative paving
 - 50% afternoon shade
 - stationary seating to include a minimum of five benches and other planter or low wall ledge seating as deemed appropriate
 - trash receptacles as appropriate
 - artistic elements which can be incorporated into the design and furnishings of the plaza
- ~~9. That approval shall be conditioned upon development commencing within 36 months of the City Council approval of this change of zoning in accordance with Section 506.B.1 of the Phoenix Zoning Ordinance. For purposes of this stipulation, development shall commence when building walls are erected for the development.~~
409. That the developer shall construct all streets within and adjacent to the development with paving, curb, gutter, sidewalk, curb ramps, streetlights, landscaping and other incidentals as per plans approved by the City. All improvements shall comply with all ADA accessibility standards.
4410. That the property owner shall record documents that disclose the existence and operational characteristics of Sky Harbor International Airport to future owners or tenants of the property. The form and content of such documents shall be

according to the templates and instructions provided, which have been reviewed and approved by the City Attorney.

PC HEARING HIGHLIGHTS:

Staff- Ms. Michelle Dodds presented Z-146-06-8, a request for C-2 HR zoning at the northwest corner of Van Buren and 11th Street. She reported on the Central City Village Planning Committee vote. Ms. Dodds recommended that if no one in opposition is present, the request could be considered on consent subject to modifications being made to stipulations #3 and #5 as presented and deleting stipulation #9.

Applicant- Mr. Nick Wood, of Snell and Wilmer, LLC, representing the property owner, stated he had nothing to add, but requested that stipulation #9 as it pertains to commencement of development within 36 months.

Motion details – Motion to move Z-146-06-8 to the consent agenda.

Maker: Gallegos

Village Planning Committee Recommendation

Z-146-06-8

Date of Meeting	January 8, 2007
Request From	C-2 Hgt/wvr
Request To	C-2 HR
Proposed Use	Condo and hotel
Location	Approx. 200 ft west of the NWC of Van Buren and 11 th St.
Recommendation	Approval with stipulations
Vote:	Approval (13-1-0)

Discussion:

Ambika Adhikari presented the staff report and expressed staff support for this application. He stated that due to a number of new activities and development near downtown, such as the bio-medical campus, the ASU downtown campus, light rail transit on Central Avenue and Washington Street, and other development in the area, the proposed high-rise and higher density mixed use project is appropriate for the site.

On behalf of the applicant, Reid Butler provided the details of the project that consists of town homes, high rise condos and hotel. He stated that it may take about three or more years to make this project financially.

Committee members asked several questions and made comments, but particularly emphasized the need for attainable housing component in the project.

Dr. Phil Blair from Van Buren Civic Association, spoke of the community interest in the project, and stated that additional height may be of concerns to some citizens, while some like it.

Dana Johnson moved to approve the project with the staff stipulations and the following note. Ann Durkin seconded. The motion was approved (13-1-0). Calvin Goode abstaining.

Note related to the motion:

The developer will work with the appropriate City staff to incorporate a reasonable percentage of attainable housing units in the project.
