

**Aviation Department Operations Security Portal Services - RFA 18-032
(Ordinance S-44701)**

Request to authorize the City Manager, or his designee, to enter into a contract with Quantum Secure, Inc. to maintain and support the Operations Security Portal (OSP) for the Aviation Department in an amount not to exceed \$1.9 million for a five-year aggregate contract term. Further request authorization for the City Controller to disburse all funds related to this item.

Summary

The services provided by Quantum Secure, Inc. are used to create and manage all security badges in the OSP system for Phoenix Sky Harbor International Airport, Deer Valley Airport, and Goodyear Airport. The Transportation Security Administration (TSA) mandates the airport security requirements and any interruption with the security services will result in negative impact to the airport operations and possible fines from the TSA. Additionally, a custom integration exists between OSP and the Honeywell Enterprise Building Integrator and Access Control and Alarm Monitoring System (ACAMS). This provides the physical security access portals that control airport employee access to the secure areas of the airports using the security badges. The services ensure continuity, efficiency, and stability in airport operations.
